THE COWARDLY ASSAULT

Like That on Greer, Was Made

Provocation.

RECOGNIZED HIS ASSAILANTS

Following the story published exclusively in the News Review Saturday evening of the brutal and vicious assault made upon John Greer by unknown parties come another account of an equally brutal and perhaps more sensational occurrence. The particulars are a trifle more explicit, as there is alleged knowledge of the perpetrators of the cowardly deed.

Prof. William Pfankuch, the well known violinist who played for some time with Victor Herbert's orchestra in Pittsburgh, and who has been in the city for several months, following his profession, was the victim of the second assault. He stated when seen this morning by a News Review reporter that it occurred, on Sunday evening, June 8, at the corner of Union and Second streets.

"I had been in the drug store there on the corner making a purchase," said he, "and not having the least idea of ever being attacked, I walked out to the edge of the sidewalk and was standing there with my back to the store when some big man came up from behind, seized me by the shoulder, swung around, and then another man commenced pounding me.

"I broke away from them and started to run up the street, but had got only a short distance when they overtook me and continued the assault. They both kicked me about my legs until from my hips down I was black and blue. I offered resistance, but was unable to do little but keep them from striking my face. After pounding and kicking me until I could scarcely walk the ruffians left.

"I hobbled the best I could to my boarding house and later notified a policeman. He went in search of the brutes but I guess they had made good their escape. I know their names and I wish they could be made to suffer. I am afraid to go out on the street after dark and will be until they are brought to justice. It was done through devilishness alone. They did not try to rob me. I never harmed a person in my life and why they beat me I can not explain."

Through the evidence which Prof. Pfankuch proposes giving the police it is thought that they will be arrested, and the guilt of attacking Greer may also be attached to them. Both assaults occurred in the same locality and it seems quite likely that they were the work of the same gang.

Greer, it is said, is somewhat improved today and has a good chance for recovery, although suffering very much.

SPECIAL SONG SERVICE

Of Unusual Interest Held at the
First Presbyterian
Church.

At the First Presbyterian church last evening every seat was occupied when the special song service was opened with a beautiful anthem, sung by the church choir. Two solos and another anthem were the changes in the regular program. They were pleasingly rendered and listened to with the keenest interest.

Rev. C. G. Jordan, pastor of the church, preached on the "Power of Music," and his remarks were certainly well illustrated by the special music.

CLEVER SWINDLER CAUGHT

Clothes Pressing Agent Who Operated
in Cleveland And Other Cities
Arrested.

Columbus, June 16.—If private advice received in this city are correct, the United States authorities have succeeded in capturing James Nagle, supposed to be one of the promoters of the Gentlemen's Valet company, which has operated in Cleveland, Toledo, Pittsburgh and Columbus. Nagle was caught in Philadelphia and Postoffice Inspector Oldfield wired a friend here that he will be brought today to Co-

lumbus, where, it is said, a charge of using the mails with intent to defraud will be placed against him.

The company opened headquarters here several weeks ago. Agents were sent to prominent citizens, offering to cleanse an depress all the clothing they wished to send for the period of one year for \$12 in advance. Presently a handsome wagon bearing the company's name was brought to Columbus and driven every day through the principal streets. Later circulars were mailed to hundreds of leading citizens, calling attention to the establishment of a branch office here, and repeating the same old story of "only a few more at this exceptionally low price."

Several days ago the alarm was sounded and the headquarters was deserted, and the company disappeared, probably carrying \$5,000 of Columbus money with it. A decoy telegram, offering to purchase the company's business here and signed by the name of a man with whom a dicker was known to be in progress was forwarded to Nagle at Philadelphia. The plan was successful and Nagle's whereabouts was learned.

The surveyors who have been working on the grades for an electric line from Pittsburgh to Cleveland, exclusive mention of which was made in this paper some days ago, are now working their way up Beaver Creek, on their way to Lisbon.

The men in charge of the engineers are as reluctant to talk of the future of their work, and seem to be anxious to complete their part of their work at an early date.

The survey has progressed to a point about six miles north of Smith's Ferry.

A WARM BATTLE

IN WHICH THE MAN HUNTING
TROUBLE GOT WORSTED.

Row in Front of the Park Resulted in
Excitement And
Arrests.

H. P. Taylor, a new motorman on the Rock Springs line, and a mill employee named Williams were the participants in a one-round sparring match in front of Rock Springs park at 6 o'clock Sunday afternoon. It caused much excitement.

Williams appeared slightly intoxicated and talked loud. Taylor asked him to desist as Sergeant Hiram Allison was coming up the street and might arrest him. Williams said he did not care who was coming, and gave Taylor a dig and wanted to fight with him.

Taylor was not looking for trouble, but being pushed he soon waded into Williams and struck but two blows, both landing hard, and knocking the mill man down and out. He was unconscious for some time. Taylor got water and washed off Williams and finally brought him to.

Williams at 7 p. m. came back to the restaurant followed by a large gang of mill workers and boys, who, finding Taylor, were about to mob him.

Meantime, Conductor Raugh, seeing that there was trouble brewing, skipped up to the car barn. An extra car was quickly loaded with men and arrived at the scene of trouble.

As soon as the gang caught sight of the street car men they at once dispersed and went in different directions.

Two of the mill men, Fred Curber and a man by the name of Warbah, were arrested by Officer Hassey, of the park, and a street railway employee named Williams, who was deputized by Hassey, and both will be given a hearing before Squire Johnston tomorrow morning.

PRIZE BANNER GIVEN

To the Junior Endeavors of the M.

Children's day was fittingly observed in the Methodist Protestant church yesterday morning. The children of the Sunday school took part and in the rendition of recitations and music they were highly entertaining.

Judges were appointed to award the banner promised several months ago to the class that did the most towards raising money for the church. The Junior Endeavor Society got the banner.

A PLEA OF GUILTY

Entered By Lawrence Allison In
the Bribery Case—Baker
Enters Same Plea.

Lisbon, June 16.—(Special)—Lawrence Allison, late deputy sheriff, was arraigned in common pleas court this afternoon for his part in connection with Baker in the alleged solicitation of bribes from East Liverpool saloon-keepers. He appeared much embarrassed and pleaded guilty on two counts.

Allison was fined \$150 and costs on each count.

Baker also pleaded guilty on one count. He was fined \$100 and cost. The costs will not be heavy.

The blackmail indictments in the case of both were nollied. They pleaded guilty to the counts charging oppression. Allison states that he will return to East Liverpool. He expects

to get employment with the United Power company.

Sheriff Leonard has stated that he will try to get along without a new deputy, except that he may employ somebody to look after duties about the jail.

Allison was charged with trying to oppress certain saloonkeepers of East Liverpool by threatening if they did not give him \$25 to hand to the grand jury the names of witnesses who would testify against them as to the violation of the liquor laws. Several indictments were returned against Allison, but the misdemeanor to which he pleaded guilty was the least of the offences. O. C. Baker was under indictment also for blackmail. He pleaded guilty to the charge of obtaining money under false pretenses and was fined \$100.

Promises Should Be Kept.

A representative of the News Review called upon Charles E. Macrum, who is secretary of the Northside Land Company, Saturday evening, and when asked as to whether he cared to be quoted regarding the Pleasant Heights street railway matter Mr. Macrum said:

"I am not adverse to telling you what I know about the Pleasant Heights street railway matter. I was very much amused upon reading the interview published Saturday evening with Attorney Jason H. Brookes. Mr. Brookes says that he and the street car company are perfectly willing to do everything to assist Messrs. Ashbaugh, Vodrey and myself, together with the land companies, to build a line from the Diamond to Pleasant Heights. Mr. Brookes has no doubt later information than that which the parties just referred to were able to obtain from Mr. Louis W. Healy, the manager of the East Liverpool Railway company.

"Mr. Healy, at the time of our visit, about ten days ago, said he did not care to build that line to Pleasant Heights, neither would he give us any satisfaction as to releasing to us the road from the Diamond out. Mr. Brookes further says that the \$5,000 which the Pleasant Heights Land company agreed to pay to Mr. Healy would be no inducement to the railway company. I think I am safe in saying that it was an inducement at the time the contract was made. Mr. Brookes says that it should be understood that the present proposition to pay the \$5,000 is not made by the Pleasant Heights Land company. Mr.

WOODMEN HOLD SOLEMN SERVICE

Memorial Exercises Impressively
Carried Out at Spring
Grove Cemetery.

MOST BEAUTIFUL CUSTOM

And Its Purpose Explained By the
Consul of the Order, W. S. Culp—
Rev. W. H. Gladden Delivers a
Most Appropriate Address.

To pay kind tribute and give a token of loving remembrance to their honored dead the local lodge of the Modern Woodmen of America marched through the sweltering sun to Spring Grove cemetery yesterday afternoon and in a beautifully solemn manner carried out their annual memorial services.

At the lodge room on Fourth street about 40 members formed into line and started on the long march, headed by a band, which played music most excellent. It was made up of Manley's and Haines' bands, the best talent of each being selected.

Upon arriving at the cemetery the program, as announced, was impressively rendered. Rev. W. H. Gladden, pastor of the Methodist Protestant church, opened the services with a feeling prayer, referring tenderly to the dead brother of the lodge. An address by the venerable consul, W. S. Culp, followed. He is a pleasing speaker and his few remarks were very appropriate and well received. In part he said:

"The custom we observe today, the purpose unto which this day is dedicated, is not bounded by lines of latitude or longitude, owes no allegiance to transient political ascendancy, acknowledges no fealty to any particular flag, but is as broad as the earth, as cosmopolitan as the sons of men and more ancient than recorded history."

"Let us then approach this beautiful and appropriate ceremony, not only reverently, but in the spirit of the broadest catholicity, which questions not the political or religious creed of the dead, exacts no requirements of the living, but recognizes alone the uni-

versal, God-given brotherhood of man, whose only tenet is the Golden Rule. He whose mortal form lies here was our neighbor, whose virtues we are pledged to emulate, but whose imperfections have been blotted from the records of our memories by the hand of death. He has found the great Arcana and has entered into peace, light and safety before us."

The Woodman's honors were then given, flowers strewn on the grave of the late Chas. C. Morgan and the services were brought to a close with an extemporaneous address by Rev. Mr. Gladden. "We have come here to observe a beautiful custom," he said. "How grand it is for us to remember our honored dead in such a manner. By this ceremony we show that the deeds of man live long after his removal from our presence. An awful thing it would be were we to forget our beloved brethren. By assembling here we are reminded of the uncertainty of life. We are surely like the flower and the grass of the field. I pray that God's blessing will be upon you and that you may all reap the harvest of a true and honored life."

TAXES ARE LESS THAN LAST YEAR

STATE AND COUNTY LEVY
AMOUNTS TO 6.35 MILLS.

The Reduction Is 1.65 Mills. Chiefly
on Taxes Imposed By
the State.

Lisbon, June 16.—(Special)—The total state and county tax levy on real and personal property for 1903 is 6.35 mills. This is 1.65 mills less than last year. The reduction is made up of a 1.54 mills reduction in the state tax and an .11 mills reduction in the tax for the county.

The rate sheet for the local district is not yet made out, but if the tax in any township or corporation is as great or greater this year than last, it will be because the local levy is higher.

THE TRAGEDY COMPLETE

Charles Gigante and Two Other Vic-
tims of the Workhouse
Riot Dead.

Canton, June 16.—Homer E. Stone, a guard at the Stark county workhouse, died yesterday afternoon of wounds received at the hands of Chas. Gigante, a prisoner who tried to escape May 21.

Stone makes the third victim of the attempt of Gigante to gain his freedom. George W. Jacob, a foreman in the brush shop, was killed by Gigante at that time. Gigante himself received wounds from a gun fired by Guard Stone, which caused his death two weeks after the assault, and Stone in turn, fell a final victim to pistol wounds made by Gigante.

SPECIAL GRAND JURY

Likely to Be Called to Dispose of
Present Jail
Cases.

Lisbon, June 16.—(Special)—A special grand jury will probably convene on Monday, June 30. It is thought it will be cheaper to have a special jury now act on the four prisoners in jail than to keep them for the regular jury in September.

The cases to come before the jury are Albert Rutter, of Salem, charged with fornication; Mrs. Alice Rutter, charged with infanticide, and Frank Haskins and Oliver Huffman, both colored, and charged with burglary.

TO ELECT TEACHERS

And Receive Bradshaw School Bids—
Important Business For
the Board.

At the regular meeting of the board of education this evening the teachers for next year will be selected and the bids for the new Bradshaw addition building will be opened.

Three bids have been received up to the present time, but it is thought that one more will be handed in before the meeting is held. Those on hand at present are from Claude Nease, J. C. McClain and Harvey McHenry, all local contractors.

PRIMARY IN STARK

Delegates to the Coming Congres-

Canton, June 16.—The Republican central committee reorganized Saturday and re-elected A. W. Alger county chairman. The committee also arranged for a primary election to select delegates to nominate a successor Congressman R. W. Tayler. The primary will be held July 12.

DAMAGE CLAIM FOR LARGE SUM

Miss Itha McHenry's Suit
Against East Liverpool
Now on Trial.

WAS INJURED BY A FALL

On Kossuth Street, and Claims Her
Hurts Will Be Per-
manent.

TESTIMONY FOR PLAINTIFF

Lisbon, June 14.—(Special)—The \$10,000 damage case of Itha McHenry vs. the city of East Liverpool came up for trial this morning and is attracting great attention.

Miss McHenry claims that on the night of Oct. 4, 1901, while passing along the sidewalk on Kossuth street, when she fell over a pile of stone and injured her knee so badly that it will always be stiff.

She was confined in bed and since has not been able to perform her duties as bookkeeper, for which she was paid \$12.50 per week. At the time of the accident her salary was about to be raised to \$75 per month. She claims that she was compelled to pay \$250 for medical services.

Geo. C. Thompson, of the C. C. Thompson Pottery company, was the first witness called for the plaintiff. He said that he traveled over Kossuth street about twice a day and was well acquainted with the scene of the accident. The nearest electric light was 225 feet distant and the light is obstructed by shade trees, making the sidewalk very dark. There was no danger signal, making it dangerous for any one not acquainted with the condition of the sidewalk to pass the place at night. On Aug. 1, 1901, the pavement was covered with a pile of stone and sand about two feet high in front of Mr. Ward's residence, then being erected. About the middle of September witness stepped on a stone at this place, and fell into a sand pile, but was not hurt. Here the court adjourned for noon.

BADLY HURT

REPAIRMAN KNOCKED FROM A
CAR IN CHESTER.

His Injuries Are Serious and Perhaps
Fatal—Cause of the Ac-
cident.

M. B. Shaffer, a lineman employed by the Rock Springs street railway, got a terrible fall Sunday evening. He was standing on top of a street car, repairing a trolley wire on Virginia avenue, when the wire slipped from his grasp and knocked off the car.

His back struck either the end of a tie or a rail on the other track injuring him internally.

Dr. C. E. Lewis was called and ordered that he be taken to his home and put to bed. His condition is somewhat worse today and it is thought that if he does not soon get better he will not recover at all.

DAMAGE CLAIM FOR LARGE SUM

Miss Itha McHenry's Suit
Against East Liverpool
Now on Trial.

WAS INJURED BY A FALL

On Kossuth Street, and Claims Her
Hurts Will Be Per-
manent.

TESTIMONY FOR PLAINTIFF

Lisbon, June 14.—(Special)—The \$10,000 damage case of Itha McHenry vs. the city of East Liverpool came up for trial this morning and is attracting great attention.

Miss McHenry claims that on the night of Oct. 4, 1901, while passing along the sidewalk on Kossuth street, when she fell over a pile of stone and injured her knee so badly that it will always be stiff.

She has not been able to perform her duties as bookkeeper, for which she was paid \$12.50 per week. At the time of the accident her salary was about to be raised to \$75 per month. She claims that she was compelled to pay \$250 for medical services.

Geo. C. Thompson, of the C. C. Thompson Pottery company, was the first witness called for the plaintiff. He said that he traveled over Kossuth street about twice a day and was well acquainted with the scene of the accident. The nearest electric light was 225 feet distant and the light is obstructed by shade trees, making the sidewalk very dark. There was no danger signal, making it dangerous for any one not acquainted with the condition of the sidewalk to pass the place at night. On Aug. 1, 1901, the pavement was covered with a pile of stone and sand about two feet high in front of Mr. Ward's residence, then being erected. About the middle of September witness stepped on a stone at this place, and fell into a sand pile, but was not hurt. Here the court adjourned for noon.

BADLY HURT

REPAIRMAN KNOCKED FROM A
CAR IN CHESTER.

His Injuries Are Serious and Perhaps
Fatal—Cause of the Ac-
cident.

M. B. Shaffer, a lineman employed by the Rock Springs street railway, got a terrible fall Sunday evening. He was standing on top of a street car, repairing a trolley wire on Virginia avenue, when the wire slipped from his grasp and knocked off the car.

His back struck either the end of a tie or a rail on the other track injuring him internally.

Dr. C. E. Lewis was called and ordered that he be taken to his home and put to bed. His condition is somewhat worse today and it is thought that if he does not soon get better he will not recover at all.

EAST END

PROPOSE TO BUILD
A COLLEGE HERE

East End Residents Would Be Glad
to Convert Neville Insti-
tute Into One.

THE IDEA IS COMMENDED

And It Is Likely An Effort Will Be
Made to Increase the Institute Fund
For the Purpose—A Nucleus of
\$10,000 to Start With.

There has been some talk between East End residents and Superintendent R. E. Rayman, of the public schools, relative to the establishing of a college in the East End, on the site now occupied by the Neville Institute. While in no definite shape, yet there is much hope of the ultimate success of the idea.

One of the most interested parties in the affair is Dr. William Calhoun, of Virginia avenue, one of the trustees of the Neville Institute. He said: "It will be remembered that the ground occupied by this school was given for educational purposes by Mr. Beaver, who many years ago, before his death, owned not less than 1,000 acres of land in the vicinity of the school. Among the prominent farms that was owned by Mr. Beaver was that now known as the Smith farm, and out of his entire holdings Mr. Beaver set aside property for higher educational purposes, until now this fund reaches almost \$10,000, much of which is out on interest."

"I have had some talk with Superintendent Rayman regarding the erection of a college building on this ground, and he seems to think that the idea is a good one, and should be advanced. It will require much more than \$10,000 to erect a college building, and if we can advance our plans further, and we have every reason to believe that our efforts will be successful, we will soon commence to start a fund with which to erect the buildings. I only hope for the success of the scheme."

There are many residents of the East End and many in the city proper who would be pleased to see a higher educational institution built and it is known that they will lend their good offices to advance such an idea, as an exceptionally good one. There is now no college near in this section of the state, and as Ohio is noted for its educational institutions it is thought this city should be represented.

MORE FIGHTING

Quarrelsome People Whose Conduct
Calls for Investigation By
the Police.

There have been several fights in the East End since Saturday evening, but so far no arrests have been made. Saturday evening, at a late hour, a man and a woman had a war of words on First avenue, which caused a number of people residing in that immediate vicinity to awake from their slumbers. They talked so loud that they could be heard for several blocks. Officer Fisher is now making an investigation.

Several men last night indulged in a fight in the old McKinnon cemetery. Finally Officer Fisher was notified, but by the time he reached the battle ground the principals had left. The trouble will likely be aired in police court before long.

The P. H. C. Reception.

All arrangements for the reception to the East End lodges by the Protected Home Circle, of the East End, have been completed and the attendance at the event, which will be held on Friday evening, gives promise of being very large. Members of the circles from East Liverpool, Chester, Wellsville and Salineville will be present, and at a late hour refreshments will be served. It is thought that several hundred persons will be present.

DON'T READ IN BED.

It Is a Dangerous Practice While Lying Down, Says an Authority.

Reading in bed is seriously advised, so the newspapers say, by a physician as conducive to "repair and resting," "relieving congestion," "emptying the veins overfilled by prolonged eyework," etc.

It is plain that placing the head back in a horizontal position so absolutely meets the whole problem of a relief of congestion by gravity—and it is such a very important problem—that it seems strange that people with weak eyes do not habitually practice reading in a recumbent position perfectly comfortable. Such advice, carried out with absolute care and light and the position of the book, would in the case of a thousand busy people add largely to the number of hours which reading could be indulged in without detriment to the eyes or general health.

Certainly the one who gives this strange and pernicious advice could never have tried the plan. Some years ago there was described a patented device for suspending the book over the horizontally placed head of a sick person whereby reading would be possible without holding the book in the hands. Even then one wonders how the light could be made to fall properly on the page. Without a method of the kind not even a well person could hold a book five minutes above the eyes. Reading in bed has ruined thousands of good eyes. Unless one sits up in bed as if in a chair it is impossible to hold the book in such a position that the arms are not quickly tired and so that the light falls on it properly. When reading lying down, there is a traction upon the inferior recti muscles which is highly injurious. Every patient should be warned never to read in bed except when sitting up as vertically as in a chair.—American Medicine.

STRONG PULSE BEATS.

Cases in Which They Are Perceptible to the Eye.

"It is not such an uncommon thing," said a physician, "to find a person whose pulse beats can be plainly seen, and yet I suppose there are but few outside of the profession who realize the fact. In most persons the beat of the pulse cannot be perceived, but the mere fact that the beating is perceptible does not mean that the pulse is other than normal. I have come across a number of cases where the throbbing of the wrist could be plainly seen, and yet the persons rarely gave evidence of abnormality in temperature. They were rarely feverish and were in good physical condition generally. Pulses of this kind, from this view, which is based upon actual observations of cases, do not indicate anything more than an abnormal physical condition in the formation of the wrist veins."

"I have met with one case which was possibly a little extraordinary in that it was plainer and much more distinct than any I had ever seen before. It could almost be heard. The artery would rise to a point almost as large as the ball of the little finger of a child and would change from the white of the skin to a blood purple with each beat of the pulse. I found it easy to count the pulse beats without touching the patient's wrist. I could see plainly enough to keep the record, and in order not to err in my calculation I tested it in several ways and found it was correct and that there was no mistake in my counting with the naked eye."—New Orleans Times-Democrat.

Origin of the Rattlesnake Flag.

One of the most common devices used on the American flags during the early part of the Revolutionary struggle was an embroidered rattlesnake above or below the legend "Don't tread on me."

The origin of this design has been traced to a remark made by Ben Franklin. At the time the flag was adopted, or immediately before, England was shipping her criminals to America and turning them loose on the defenseless colonists. After several murders had been committed by these unwelcome immigrants Ben Franklin (some say in a joking spirit) suggested that the colonists retaliate by sending a cargo of rattlesnakes to the mother country and turning them out in the gardens of the nobles.

What She Says.

"A man can't tell whether a girl means what she says," he remarked thoughtfully.

"Of course not," she replied. "If he thinks she does, why she just naturally doesn't the moment she finds it out, and, if he thinks she doesn't, why she does."—Chicago Post.

EAST END
PROPOSE TO BUILD

East End Residents Would Be Glad
to Convert Neville Insti-
tute Into One.

THE IDEA IS COMMENDED

And It Is Likely An Effort Will Be
Made to Increase the Institute Fund
For the Purpose—A Nucleus of
\$10,000 to Start With.

There has been some talk between
East End residents and Superintendent
R. E. Rayman, of the public
schools, relative to the establishing
of a college in the East End, on the
site now occupied by the Neville Insti-
tute. While in no definite shape,
yet there is much hope of the ultimate
success of the idea.

One of the most interested parties
in the affair is Dr. William Calhoun,

of Neville Institute. He said: "It
will be remembered that the ground
occupied by this school was given for
educational purposes by Mr. Beaver,
who many years ago, before his death,
owned not less than 1,000 acres of land
in the vicinity of the school. Among
the prominent farms that was owned
by Mr. Beaver was that now known
as the Smith farm, and out of his en-
tire holdings Mr. Beaver set aside
property for higher educational pur-
poses, until now this fund reaches al-
most \$10,000, much of which is out on
interest.

"I have had some talk with Superin-
tendent Rayman regarding the erec-
tion of a college building on this
ground, and he seems to think that
the idea is a good one, and should be
advanced. It will require much more
than \$10,000 to erect a college build-
ing, and if we can advance our plans
further, and we have every reason to
believe that our efforts will be suc-
cessful, we will soon commence to
start a fund with which to erect the
buildings. I only hope for the success
of the scheme."

There are many residents of the
East End and many in the city proper
who would be pleased to see a higher
educational institution built and it is
known that they will lend their good
offices to advance such an idea, as an
exceptionally good one. There is now

DON'T READ IN BED.

It Is a Dangerous Practice While
Lying Down, Says an Authority.

Reading in bed is seriously advised,
so the newspapers say, by a physician
as conducive to "repair and resting,"
"relieving congestion," "emptying the
veins overfilled by prolonged eyework,"
etc.

It is plain that placing the head back
in a horizontal position so absolutely
meets the whole problem of a relief
of congestion by gravity—and it is such
a very important problem—that it seems
strange that people with weak eyes
do not habitually practice reading in a
recumbent position perfectly comforta-
ble. Such advice, carried out with ab-
solute care and light and the position
of the book, would in the case of a
thousand busy people add largely to
the number of hours which reading
could be indulged in without detriment
to the eyes or general health.

Certainly the one who gives this
strange and pernicious advice could
never have tried the plan. Some years
ago there was described a patented de-
vice for suspending the book over the
horizontally placed head of a sick per-
son whereby reading would be possible
without holding the book in the hands.
Even then one wonders how the light
could be made to fall properly on the
page. Without a method of the kind
not even a well person could hold a
book five minutes above the eyes.
Reading in bed has ruined thousands
of good eyes. Unless one sits up in
bed as if in a chair it is impossible to
hold the book in such a position that
the arms are not quickly tired and so
that the light falls on it properly. When
reading lying down, there is a traction
upon the inferior recti muscles which is
highly injurious. Every patient should
be warned never to read in bed except
when sitting up as vertically as in a
chair.—American Medicine.

STRONG PULSE BEATS.

Cases in Which They Are Perceptible
to the Eye.

"It is not such an uncommon thing,"
said a physician, "to find a person
whose pulse beats can be plainly seen,
and yet I suppose there are but few
outside of the profession who realize
the fact. In most persons the beat
of the pulse cannot be perceived, but
the mere fact that the beating is per-
ceptible does not mean that the pulse
is other than normal. I have come
across a number of cases where the
throbbing of the wrist could be plainly
seen, and yet the persons rarely gave
evidence of abnormality in tempera-
ture. They were rarely feverish and
were in good physical condition gen-
erally. Pulses of this kind, from this
view, which is based upon actual ob-
servations of cases, do not indicate
anything more than an abnormal phys-
ical condition in the formation of the
wrist veins.

"I have met with one case which
was possibly a little extraordinary in
that it was plainer and much more dis-
tinct than any I had ever seen before.
It could almost be heard. The artery
would rise to a point almost as large
as the ball of the little finger of a
child and would change from the white
of the skin to a blood purple with each
beat of the pulse. I found it easy to
count the pulse beats without touching
the patient's wrist. I could see plainly
enough to keep the record, and in order
not to err in my calculation I tested it
in several ways and found it was cor-
rect and that there was no mistake in
my counting with the naked eye."—
New Orleans Times-Democrat.

Origin of the Rattlesnake Flag.

One of the most common devices
used on the American flags during the
early part of the Revolutionary struggle
was an embroidered rattlesnake
above or below the legend "Don't tread
on me."

The origin of this design has been
traced to a remark made by Ben
Franklin. At the time the flag was
adopted, or immediately before, Eng-
land was shipping her criminals to
America and turning them loose on
the defenseless colonists. After sev-
eral murders had been committed by
these unwelcome immigrants Ben
Franklin (some say in a joking spirit)
suggested that the colonists retaliate
by sending a cargo of rattlesnakes to
the mother country and turning them
out in the gardens of the nobles.

COULD ADJOURN SOON

Senators Agreed It Would Be Possible, But For the Cuban Bill.

WELL UP IN LEGISLATION.

Only One Appropriation Bill Remains to Be Acted Upon in the Last Stage—Forecast For the Week in House and Senate.

Washington, June 16.—The senate will meet at 11 o'clock each day during the present week up to and including Thursday, in order to permit ample opportunity for discussion of the isthmian canal bill prior to voting on the bill and amendments on Thursday.

The four days preceding the vote will be crowded with speeches on the bill, the announcements made of intended remarks being unusually numerous. Senator Kittredge will speak today in support of the Nicaragua route, and will be followed on Tuesday by Senator Hanna. During the week Senators Foster, of Louisiana, and Pettus will make addresses in favor of the Nicaragua route, and on Thursday Senator Morgan will close the debate in the interest of Nicaragua. The supporters of the Panama route express great confidence in the success of the Spooner bill.

Other Bills Which May Come Up.

Other measures which may be considered during the week, if opportunity permits, are the London dock charge bill and the pure food bill. There will be a strong effort made to have the Cuban reciprocity bill in readiness to be made the unfinished business when the canal bill shall have been disposed of. It is expected that the Cuban committee will be prepared to report Wednesday or Thursday.

There is general agreement that but for the Cuban bill the final adjournment of the session could be secured at an early day. Only the general deficiency bill of the entire list of appropriation bills remains to be acted on in the first stage. With the passage of the District of Columbia bill by the senate Saturday that body disposed of the last of the supply bills on the calendar, and as the house has the deficiency bill before it there is comparatively little to do in the way of getting the appropriation bills through. The naval bill, the army bill, the District of Columbia bill and the sundry civil bill are still in conference, but no one believes an agreement on them would be difficult if adjournment could be expedited thereby.

Probable Work in the House.

Washington, June 16.—Today is suspension day in the house and the speaker has agreed to recognize a number of members to move the passage of bills under suspension. Whatever time remains today, together with tomorrow, has been set aside for consideration of the bill to amend the bankruptcy act. Wednesday the general deficiency appropriation bill will be taken up and on Thursday consideration of the Philippine civil government bill will begin. Under the rule agreed on for consideration of the latter bill there will be a day session, beginning at 11 a. m., and a night session, beginning at 8 o'clock, for general debate until Tuesday when the bill will be opened to the five-minute rule. The final vote will be taken on Wednesday.

Bill to Make Cuba a State.

Washington, June 16.—Senator Elkins, leader of the beet sugar insurgents, introduced in the senate Saturday morning a resolution providing for the annexation of Cuba and its admission as a state, on condition that the constitution of such state be transmitted to congress for its approval not later than Jan. 1, 1904. The resolution provides that Cuba cede to the United States everything but its revenues, dues, debts and vacant and unappropriated lands. The resolution appropriates \$100,000 for the purpose.

New West Virginia Bank.

Washington, June 16.—The comptroller has authorized the First National bank of Philadelphia, W. Va., to commence business; capital, \$50,000; J. N. B. Crim, president, J. F. Mawson, cashier. The comptroller has extended the corporate existence of the First National bank of Johnstown, Pa., until June 15, 1902. Alpheus C. Washington, June 16.—Senator Proctor Saturday introduced a bill authorizing the president to appoint Captain Charles E. Clark, late of the battleship Oregon, a rear admiral.

MINE WATCHMAN WAS SHOT.

Assailants of a Company Man at Olyphant, Pa., Are Unknown—Gilday Saw Mitchell.

Seranton, Pa., June 16.—About 1 o'clock Sunday morning a watchman at the Delaware and Hudson company's No. 2 colliery, in Olyphant, found a fellow watchman, Charles Robinson, lying under a freight car unconscious and with a bullet hole in his right breast. The company officials have offered a reward of \$1,000 for information that will lead to the detection of the person who fired the shot.

Earlier in the night a Hungarian was fired upon by two coal and iron policemen at this colliery. The Hungarian was cutting firewood on the company's property. It is thought that possibly he was hit, and that his friends returned and ambushed Robinson. The two policemen were arrested.

Wilkesbarre, Pa., June 16.—Patrick Gilday, president of the Central Pennsylvania bituminous district of the United Mine Workers of America, who came here to consult President Mitchell on a matter local to this district, in a talk with a correspondent of the Associated Press yesterday, said in part that there are 42,000 soft coal miners in his district and every one of them is taking a deep interest in the struggle now going on in this region. On the second day of the strike Mr. Gilday sent out the instructions to every checkweighman and pit committeeman at the mines in his district to prevent the shipment of soft coal into anthracite territory, and thus far, he said, very little coal from his district had taken the place of anthracite. None was being shipped except the nominal supply.

When asked regarding the feeling in his territory as to a general strike to help the hard coal miners, Mr. Gilday said:

"Our men will do whatever President Mitchell says. They can have our financial support, and if Mr. Mitchell sees fit to ask our men to lay down their picks they will do it promptly. I do not believe, however, there will be a general strike of the soft coal miners, because the anthracite men are going to win without it."

President Gilday's mission here was to get President Mitchell's consent to continue the strike against the Sonoma Shaft Coal company, near Portage, Pa., and also the financial support of the national organization. The strike at that place was inaugurated on April 16, because the company would not recognize the union and sign the wage scale. About 150 men were involved.

The strike at the Bloomington mines, near Philipsburg, Pa., has been settled and the men will return to work today. Five hundred men struck there last Tuesday because four men would not join the union. The four men have quit work.

STRIKERS AFTER RAILROADERS

Were Trying to Get Them Not to Handle Coal Mined in Clarksburg, W. Va., Region.

Clarksburg, W. Va., June 16.—An effort was being made to induce the railroad men to refuse to handle coal mined in this district. Success in this would mean a complete suspension of mining. There was some little uneasiness among operators. Organizers will leave this field today for the West Virginia Central to induce a strike among the miners of the Davis Elkins syndicate. Mother Jones and others addressed 300 persons yesterday at Willow Tree school house, near Monongah. The crowd was largely composed of women, children and farmers.

Fairmont, W. Va., June 16.—Reports from throughout the coal region were to the effect that Sunday had been an uneventful day. All the plants in this district were expected to resume today. A verdict in the case of the strikers' leaders was expected today. All the organizers under arrest gave a bond and spent Sunday at various points throughout the region. They stated that the campaign will be prolonged for an indefinite period.

TWO MURDERERS ESCAPED.

Cell Doors Were Faulty in the Jail, at Stroudsburg, Pa.

Stroudsburg, Pa., June 16.—Charles Grether and Benjamin Aiello, convicted murderers, escaped from the Monroe county jail here yesterday morning. A posse was in pursuit. It was believed the men pursued, as Grether had been traced as far as the woods at North Water Gap.

The cell doors, it was said, were faulty, and while the watchman was in another part of the building the men walked out of their cells and, unbolting the outside iron door, passed out of the building. Sheriff Mervine sent telegraphic notification of the men's escape to the authorities of all nearby cities and towns.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. What They Were Hawking.

At an exhibition of paintings in London in one of the galleries hung the notable picture "Hawking in the Olden Times." An elderly farmer and his wife paused before this picture, viewing it with evident satisfaction.

"John," said the old lady, "what's that?"

John then turned over the leaves of the catalogue he carried.

"They call it 'Hawking in the Olden Time,'" said he.

"Hawking? Why, what are they hawking?" she inquired.

"I dunno," he replied, "but I spects they're trying to sell them birds."

COULD ADJOURN SOON

Senators Agreed It Would Be Possible, But For the Cuban Bill.

WELL UP IN LEGISLATION.

Only One Appropriation Bill Remains to Be Acted Upon in the Last Stage—Forecast For the Week in House and Senate.

Washington, June 16.—The senate will meet at 11 o'clock each day during the present week up to and including Thursday, in order to permit ample opportunity for discussion of the isthmian canal bill prior to voting on the bill and amendments on Thursday.

The four days preceding the vote will be crowded with speeches on the bill, the announcements made of intended remarks being unusually numerous. Senator Kittredge will speak today in support of the Nicaragua route, and will be followed on Tuesday by Senator Hanna. During the week Senators Foster, of Louisiana, and Pettus will make addresses in favor of the Nicaragua route, and on Thursday Senator Morgan will close the debate in the interest of Nicaragua. The supporters of the Panama route express great confidence in the success of the Spooner bill.

Other Bills Which May Come Up.

Other measures which may be considered during the week, if opportunity permits, are the London dock charge bill and the pure food bill. There will be a strong effort made to have the Cuban reciprocity bill in readiness to be made the unfinished business when the canal bill shall have been disposed of. It is expected that the Cuban committee will be prepared to report Wednesday or Thursday.

There is general agreement that but for the Cuban bill the final adjournment of the session could be secured at an early day. Only the general deficiency bill of the entire list of appropriation bills remains to be acted on in the first stage. With the passage of the District of Columbia bill by the senate Saturday that body disposed of the last of the supply bills on the calendar, and as the house has the deficiency bill before it there is comparatively little to do in the way of getting the appropriation bills through. The naval bill, the army bill, the District of Columbia bill and the sundry civil bill are still in conference, but no one believes an agreement on them would be difficult if adjournment could be expedited thereby.

Probable Work in the House.

Washington, June 16.—Today is suspension day in the house and the speaker has agreed to recognize a number of members to move the passage of bills under suspension. Whatever time remains today, together with tomorrow, has been set aside for consideration of the bill to amend the bankruptcy act. Wednesday the general deficiency appropriation bill will be taken up and on Thursday consideration of the Philippine civil government bill will begin. Under the rule agreed on for consideration of the latter bill there will be a day session beginning at 11 a. m., and a night session, beginning at 8 o'clock, for general debate until Tuesday when the bill will be opened to the five-minute rule. The final vote will be taken on Wednesday.

Bill to Make Cuba a State.

Washington, June 16.—Senator Elkins, leader of the beet sugar insurgents, introduced in the senate Saturday morning a resolution providing for the annexation of Cuba and its admission as a state, on condition that the constitution of such state be transmitted to congress for its approval not later than Jan. 1, 1904. The resolution provides that Cuba cede to the United States everything but its revenues, dues, debts and vacant and unappropriated lands. The resolution appropriates \$100,000 for the purpose.

New West Virginia Bank.

Washington, June 16.—The comptroller has authorized the First National bank of Philadelphia, W. Va., to commence business; capital, \$50,000; J. N. B. Crim, president; J. F. Mazon, cashier. The comptroller has extended the corporate existence of the First National bank of Johnstown, Pa., until June 15, 1922. Alpheus C. Meyers has been reinstated as stamper and gauger in the Pittsburgh internal revenue office.

Bill Aimed at Trusts.

Washington, June 16.—Representative

Richardson, of Tennessee, Saturday introduced a bill to place all articles and commodities manufactured and controlled or produced in the United States by a trust or trusts on the free list and to reduce the rate of duty on any article or commodity manufactured in the United States and sold in a foreign country more cheaply than in the United States.

Clark to Be Made Rear Admiral. Washington, June 16.—Senator Proctor Saturday introduced a bill authorizing the president to appoint Captain Charles E. Clark, late of the battleship Oregon, a rear admiral.

MINE WATCHMAN WAS SHOT.

Assailants of a Company Man at Olyphant, Pa., Are Unknown—Gilday Saw Mitchell.

Seranton, Pa., June 16.—About 1 o'clock Sunday morning a watchman at the Delaware and Hudson company's No. 2 colliery, in Olyphant, found a fellow watchman, Charles Robinson, lying under a freight car unconscious and with a bullet hole in his right breast. The company officials have offered a reward of \$1,000 for information that will lead to the detection of the person who fired the shot.

Earlier in the night a Hungarian was fired upon by two coal and iron policemen at this colliery. The Hungarian was cutting firewood on the company's property. It is thought that possibly he was hit, and that his friends returned and ambushed Robinson. The two policemen were arrested.

Wilkesbarre, Pa., June 16.—Patrick Gilday, president of the Central Pennsylvania bituminous district of the United Mine Workers of America, who came here to consult President Mitchell on a matter local to this district, in a talk with a correspondent of the Associated Press yesterday, said in part that there are 42,000 soft coal miners in his district and every one of them is taking a deep interest in the struggle now going on in this region. On the second day of the strike Mr. Gilday sent out the instructions to every checkweighman and pit committeeman at the mines in his district to prevent the shipment of soft coal into anthracite territory, and thus far, he said, very little coal from his district had taken the place of anthracite. None was being shipped except the nominal supply.

When asked regarding the feeling in his territory as to a general strike to help the hard coal miners, Mr. Gilday said:

"Our men will go whatever President Mitchell says. They can have our financial support, and if Mr. Mitchell sees fit to ask our men to lay down their picks they will do it promptly. I do not believe, however, there will be a general strike of the soft coal miners, because the anthracite men are going to win without it."

President Gilday's mission here was to get President Mitchell's consent to continue the strike against the Sonoma Shaft Coal company, near Portage, Pa., and also the financial support of the national organization. The strike at that place was inaugurated on April 16, because the company would not recognize the union and sign the wage scale. About 150 men were involved.

The strike at the Bloomington mines, near Philipsburg, Pa., has been settled and the men will return to work today. Five hundred men struck there last Tuesday because four men would not join the union. The four men have quit work.

STRIKERS AFTER RAILROADERS

Were Trying to Get Them Not to Handle Coal Mined in Clarksburg, W. Va., Region.

Clarksburg, W. Va., June 16.—An effort was being made to induce the railroad men to refuse to handle coal mined in this district. Success in this would mean a complete suspension of mining. There was some little uneasiness among operators. Organizers will leave this field today for the West Virginia Central to induce a strike among the miners of the Davis-Elkins syndicate. Mother Jones and others addressed 300 persons yesterday at Willow Tree school house, near Monongah. The crowd was largely composed of women, children and farmers.

Fairmont, W. Va., June 16.—Reports from throughout the coal region were to the effect that Sunday had been an uneventful day. All the plants in this district were expected to resume today. A verdict in the case of the strikers' leaders was expected today. All the organizers under arrest gave a bond and spent Sunday at various points throughout the region. They stated that the campaign will be prolonged for an indefinite period.

TWO MURDERERS ESCAPED.

Cell Doors Were Faulty in the Jail, at Stroudsburg, Pa.

Stroudsburg, Pa., June 16.—Charles Grether and Benjamin Aiello, convicted murderers, escaped from the Monroe county jail here yesterday morning. A posse was in pursuit. It was believed the men separated, as Grether had been traced as far as the woods at North Water Gap.

The cell doors, it was said, were faulty, and while the watchman was in another part of the building the men walked out of their cells and, unbolting the outside iron door, passed out of the building. Sheriff Mervine sent telegraphic notification of the men's escape to the authorities of all nearby cities and towns.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. What They Were Hawking.

At an exhibition of paintings in London in one of the galleries hung the notable picture "Hawking in the Olden Times." An elderly farmer and his wife paused before this picture, viewing it with evident satisfaction.

"John," said the old lady, "what's that?"

John then turned over the leaves of the catalogue he carried.

"They call it 'Hawking in the Olden Times,'" said he.

"Hawking! Why, what are they hawking?" she inquired.

"I dunno," he replied, "but I spects they're trying to sell them birds."

DESPICABLE JOURNALISM.

It is a vile bird that fouls its own
nest. It is a desperate and despicable
sort of journalism that leads a news-
paper, on the hunt for sensations, to
publish matter that would not only
injuriously affect its own fortunes, if it
had any reputation to maintain, but
must inevitably work against the inter-
ests of every citizen of the community
where it circulates. These remarks
are called forth by the publication in
the Crisis of Saturday of an article,
padded to great length with extrane-
ous matter, concerning the manufac-
turing potters' meeting of Friday
night and stating, in circus poster
type, that the propositions presented
by the National Brotherhood of Operative
Potters had been "Turned Down." The
natural tendency of such a report is
to be injurious alike to manufacturers
and employees, and the article has
aroused the indignation of citizens of
all classes.

The News Review knew just as
much as the Crisis of the proceedings
of the manufacturers' meeting, and it
had the facts in time to publish them
had it so desired. But the News Re-
view is not a promoter of strikes or
strife, but has some regard for the wel-
fare of the city and of workmen's
and manufacturers' interests. The
statement that the operatives' terms
were rejected is altogether misleading.
The very fact that the manufacturers
decided to appoint a conference
committee to meet with a committee
of the N. B. of O. P. affords all the evi-
dence necessary that they are not dis-
posed to reject the numerous proposi-
tions, if they reject them at all, with-
out first giving the men a hearing. In
the past these conferences have result-
ed in mutually satisfactory agree-
ments. There is no warrant for pre-
dicting that the coming conference
will not have an equally happy out-
come. When the conference has been
held and a decision reached, the News
Review will give the public the news.
Until that time, regarding speculation
as idle, it will publish only legitimate
news and no predictions concerning
the matter. Effort to draw it into a
controversy on the subject will be fu-
tile.

Once a year the Crisis puts forth
strenuous efforts to cripple the indus-
try on which the prosperity of East
Liverpool chiefly depends. It provoked
the last great strike, according to the
testimony of men now prominent in
the Brotherhood, and it has talked
strike every year since that time, just

WHAT IS GOING ON IN THE POTTERIES

In the past few years, when there
were not near so many potteries in
the west as today, the idea gained
ground that any man who would build
and run a pottery was on the sure road
to a quick fortune. A few cents'
worth of clay juggled into handsome
pottery products at a nominal ex-
pense would find a ready market and
be worth dollars. And so new potter-
ies have been multiplying steadily.
Now the majority of the potters are
beginning to think that productive ca-
pacity in the great staple lines of
earthenware is surpassing present
consumptive demand, and that the
slowness this spring is due in part to
insufficient trade to go fully around.
Schemes for the building of new pot-
teries are thick, and if all materialize,
conditions will be worse than today.

Several weeks ago the exclusive an-
nouncement was made in this column
that the coal strike in eastern Penn-
sylvania would no doubt have a se-
rious effect upon the Trenton potter-
ies. Two Trenton potteries have been
compelled to shut down for a time at
least on account of the scarcity of coal.
The International pottery has suspend-
ed work temporarily, while at the
John Moses Glasgow pottery the kiln-
men have been compelled to quit
work. The condition that now exists
in these potteries has assumed a se-
rious aspect. One Trenton man has
cornered about 75 cars of coal and is
selling it at \$7 a ton. Manufacturers
refuse to buy from him, and are try-
ing to get a supply of fuel from other
sources.

The conference committee of the
National Brotherhood of Operative
Potters were to meet a committee
from the sanitary manufacturers today
to revise the present sanitary list at
Trenton. Since Wednesday the commit-
tee has been busy collecting statistics
from the various plants and has all the
necessary material for the formation
of a new list. The meeting is expected
to be a harmonious one, and if it suc-
ceeds in forming a uniform price list
it will remove the causes for many
petty differences which have arisen
during the past year.

The Southern Sewer Pipe company
is a new concern that has commenced
the erection of a large plant at Bir-
mingham, Ala. The plant will have a
capacity of 26 kilns and the contract
for the erection has been let to
Charles A. Bray, of Toronto, who left
Saturday evening in company with
William Cadman and John Brown, of
New Cumberland, for Birmingham to
build the kilns. Over 5,000,000 brick
will be used in the construction of the
kilns.

From the manufacture of his class
art ware to the production of a line of
general ware, has been announced as
being the future policy of the Vance
Faience Pottery company, of Tilton-
ville. Moulds are now being made for
the new dinner and toilet sets that will
be placed on the market by this firm.

Adolph Miller, formerly of this city,
but now located at Akron, may estab-
lish a novelty works in this city. He
has been experimenting with clays
found in this section, and is of the
opinion that some excellent ware can
be made from such a body.

Local No. 48, warehousemen, will
hold their regular meeting this even-
ing in the Knights of Columbus hall.
This will be the first meeting of this
local since last Friday a week. The
new officers will be elected at the ses-
sion this evening.

During the past few days the follow-
ing salesmen have returned to the
city: Col. J. W. Aymar and W. F.
Wetherell, of the East Liverpool Pot-
teries company; Cecil Taylor, George
C. Pugh and A. J. Knorr, of the Taylor
plant, at Chester.

The Wilsonville Pottery company is
a new concern which is to locate at
Trenton. The building that will be
used for this purpose has for years
been occupied as a sagger manufac-
tory. B. F. Walton is the president.

The Trenton art school announces
that a course in china painting will
be given at the opening of the next
school season. The study of ceramics
will also be an addition to the course
in this school.

Commencing July 1 the Bell pottery
at Findlay will close for about two
months. Work, however, is to be rush-
ed in the erection of the plant this
company proposes to operate at Col-
umbus.

Kildrawers' local No. 17, at a meet-
ing in Brotherhood hall Saturday eve-
ning, obligated one new member and

acted upon several applications. The
first nominations for officers for the
new term were made at this session.
The election will be held next Satur-
day evening.

Now that the warehousemen have
decided to meet on Monday evenings,
no less than five locals meet on that
evening, while only three meet on Fri-
day evenings.

Samuel Mayer, who has been em-
ployed at the D. E. McNicol plant for
several years as a glost kilnman, will
soon be located at the Laughlin No. 2.

George Smith and Alexander Os-
bourne, who have been working on the
glost end at Brunt's, have been help-
ing out at the Union for a few days.

The manufacturing potters and the
operatives at Trenton have given \$500
toward the erection of a monument to
the memory of J. Hart Brewer.

"Narcissus" is the name of the new
dinner set now being made by the East
Liverpool Potteries company at the
Wallace & Chetwynd factory.

The meeting of jiggermen's local No.
12, which will be held in Brotherhood
hall tomorrow evening, will be quite
an important session.

John Wood, Sr., claymaker at the
Diamond, who has been at New Castle
visiting his sons for a few days, has
returned to the city.

In the new sanitary shop that is be-
ing built at Trenton by B. F. Walton
& Co., 25 pressers will be employed.

George Cox, formerly an oddman at
Goodwin's, has taken a position as
night watchman at the Union.

A small fire occurred at the Mad-
dock pottery at Trenton a few days
ago.

THE FAMOUS SHOWS

**GENTRY BROTHERS' TRAINED
ANIMALS ARE IN TOWN.**

**A Fine Street Parade By the Miniature
Circus—Its Reputation
Great.**

Gentry Bros.' famous shows arrived
in the city early Sunday morning and
immediately preceded to unload at
West End park, where performances
were given this afternoon and will al-
so be given this evening.

The parade made this morning at 10
o'clock was witnessed by hundreds and
was enjoyed hugely, especially by the
children. Two bands and a callopie
furnished excellent music, while the
dogs, monkeys, horses, elephants, po-
nies and the representation of a mod-
ern fire company were indeed very im-
posing. Everything was clean and
bright as a new dollar.

All who had the pleasure of witness-
ing the parade say that it was far
ahead of the usual run and that it ex-
celled any that has been seen in the
city for years. It was over three
blocks in length and every feature was
beyond the expectation of all. The dogs
are the best educated of any in the
country and with the ponies have a na-
tional reputation. To children they
are very interesting and help them
wonderfully in the comprehension of
what the lower animals can accom-
plish. And there are scores of older
people who have seen Gentry's shows
who say they are far more interesting
and attractive in every feature than
the big circuses.

There is every indication of big
crowds to witness the performances,
and there can be no doubt of satisfac-
tion and enjoyment for all who at-
tend.

DAIRY NOTES.

Good butter should be sold from the
time it is put upon the table.

Any excitement in the dairy cow
tends to lessen the flow of milk.

Failing to get all the buttermilk out
causes butter to become rancid soon.

To obtain the best results in churning
the cream should be only slightly sour.
In winter the cream should be warm-
ed up to about 66 degrees before put-
ting in the churn.

One advantage in brine salting is
that it almost entirely avoids streaked
or mottled butter.

The milk should always be skimmed
while sweet and the cream then allow-
ed to turn slightly sour.

Sometimes butter has white specks
distributed through it. This is caused
by oversourness in the cream.

In butter making next to controlling
the temperature is to churn often while
the cream is in good condition.

With temperature under control and
churning done at the right time the
butter will become solid and be easily
handled.

On the farm to make the most out of
the milk and butter some of the cows
should be bred to come fresh in the
spring and some in the fall.—St. Louis
Republic.

DESPICABLE JOURNALISM.

It is a vile bird that fouls its own
nest. It is a desperate and despicable
sort of journalism that leads a news-
paper, on the hunt for sensations, to
publish matter that would not only
injuriously affect its own fortunes, if it
had any reputation to maintain, but
must inevitably work against the inter-
ests of every citizen of the community
where it circulates. These remarks
are called forth by the publication in
the Crisis of Saturday of an article,
padded to great length with extrane-
ous matter, concerning the manufac-
turing potters' meeting of Friday
night and stating, in circus poster
type, that the propositions presented
by the National Brotherhood of Oper-
ative Potters had been "Turned Down."
The natural tendency of such a report
is to be injurious alike to manufactur-
ers and employees, and the article has
aroused the indignation of citizens of
all classes.

The News Review knew just as
much as the Crisis of the proceedings
of the manufacturers' meeting, and it
had the facts in time to publish them
had it so desired. But the News Re-
view is not a promoter of strikes or
strife, but has some regard for the wel-
fare of the city and of workingmen's
and manufacturers' interests. The
statement that the operatives' terms
were rejected is altogether misleading.
The very fact that the manufacturers
decided to appoint a conference
committee to meet with a committee
of the N. B. O. P. affords all the evi-
dence necessary that they are not dis-
posed to reject the numerous proposi-
tions, if they reject them at all, with-
out first giving the men a hearing. In
the past these conferences have result-
ed in mutually satisfactory agree-
ments. There is no warrant for pre-
dicting that the coming conference
will not have an equally happy out-
come. When the conference has been
held and a decision reached, the News
Review will give the public the news.
Until that time, regarding speculation
as idle, it will publish only legitimate
news and no predictions concerning
the matter. Effort to draw it into a
controversy on the subject will be fu-
tile.

Once a year the Crisis puts forth
strenuous efforts to cripple the indus-
try on which the prosperity of East
Liverpool chiefly depends. It provoked
the last great strike, according to the
testimony of men now prominent in
the Brotherhood, and it has talked
strike every year since that time, just

before the annual wage scale was to
be settled. A nice way, truly, to pro-
mote harmony and agreement between
manufacturing and operative potters
and to encourage the business of the
city! A paper that has more changes
of administration in its own office in
a year than a South American repub-
lic has in a decade is certainly not in
a position to be influential as a coun-
selor of peace, but it might at least
have the grace to shut its yawning
mouth when it can do no good and is
likely to cause incalculable harm
by talking.

The potters' wage scale is a matter
to be settled by the parties interested
and not aired in the newspapers. No
one in East Liverpool can question
the fact that the News Review regu-
larly collects and publishes more reliable
news concerning the potteries than
any other paper that circulates here
or elsewhere. But there is one sort of
"news" that it will not publish, and
that is gossip and rumors calculated
to breed friction and strife. Its col-
umns, unlike those of its contempora-
ry, are never open to statements calcu-
lated to deal a blow to the general
welfare of the city.

Already there is a discussion in the
newspapers as to the suppression of
Fourth of July noise. The manifest
disposition in East Liverpool appears
to be to let the small boy do all the
noisemaking. But it would be a
mighty wise thing to take precautions
to keep dynamite crackers and toy
pistols out of his hands.

Elkins' Cuban annexation resolution
is premature. Time enough for con-
gress to decide that question when
Cuba asks to come in. And it will be
something of a surprise if she waits
long before asking.

OBITUARY

William G. Foster.

William G. Foster, Sr., of the firm
of Stevenson & Foster, printers, and
for years one of the substantial men
of Pittsburgh, died Friday night at At-
lantic City, N. J. He went to Atlantic
City about two weeks ago hoping to
benefit his health. Mr. Foster was 65
years of age. He was born in Clarion
county, Pa., and had been engaged in
the printing business all his life. He
went to Pittsburgh about 1871 and en-
gaged in business immediately with
William Stevenson. Previous to that he
had been in the newspaper business
in Wellsburg, where he established the
Union. His partner, William Steven-
son, died about a year ago.

Mr. Foster is survived by his wife,
two sons, Charles F. and William G.
Jr., and a daughter, Miss Katherine
Foster. He was a member of Ascalon
Commandery, Knights Templar, vice
president of the United States Na-
tional bank, a director of the Free Dis-
pensary and a trustee of the Third
Presbyterian church.

"Dogwood Winter."

A man from North Carolina who was
visiting in Philadelphia in the course
of conversation used the expression
"dogwood winter."

"What do you mean by dogwood
winter?" asked his host.

"Don't you really know what dog-
wood winter is?" demanded the man
from Hickory, N. C. "There is always
a spell of it in May when the dogwood
tree is in bloom. For several days
there is cold, disagreeable, cloudy
weather and often a touch of frost.
Down our way it never fails, and we
call it dogwood winter. I thought the
phrase was general."

The Colors in Battle.

Some people may not know that the
colors are not now taken into action.
Before a corps proceeds on service they
are placed in safe custody, as suits
such honorable insignia, and "when
Johnny comes marching home again"
they will be all the fresher for not be-
ing carried through dusty lands and
trying rivers. The men whose duty
it would have been to carry them and
stand by them to the last are now-a-
days employed in less sentimental, if
more useful, duties.

One Attraction Missing.

"Say," said the young writer who
had been engaged by the circus man to
write up a prospectus of the show.
"I've about exhausted my vocabulary
on this thing. Have you a thesaurus?"
"No, by thunder!" said the circus
man. "We've only got a rhinoceros,
but I'll cable over and buy one."—New
York Times.

The Blessing of Poverty.
"What a blessing is poverty!" ex-
claimed the old man.

"A blessing?"
"Why, yes. When you're real down
poor, you have such a good time hopin'
fer the best!"—Atlanta Constitution.

WHAT IS GOING ON IN THE POTTERIES

In the past few years, when there
were not near so many potteries in
the west as today, the idea gained
ground that any man who would build
and run a pottery was on the sure road
to a quick fortune. A few cents'
worth of clay juggled into handsome
pottery products at a nominal ex-
pense would find a ready market and
be worth dollars. And so new potter-
ies have been multiplying steadily.
Now the majority of the potters are
beginning to think that productive ca-
pacity in the great staple lines of
earthenware is surpassing present
consumptive demand, and that the
slowness this spring is due in part to
insufficient trade to go fully around.
Schemes for the building of new pot-
teries are thick, and if all materialize,
conditions will be worse than today.

Several weeks ago the exclusive an-
nouncement was made in this column
that the coal strike in eastern Penn-
sylvania would no doubt have a se-
rious effect upon the Trenton potter-
ies. Two Trenton potteries have been
compelled to shut down for a time at
least on account of the scarcity of coal.
The International pottery has suspend-
ed work temporarily, while at the
John Moses Glasgow pottery the kiln-
men have been compelled to quit
work. The condition that now exists
in these potteries has assumed a se-
rious aspect. One Trenton man has
cornered about 75 cars of coal and is
selling it at \$7 a ton. Manufacturers
refuse to buy from him, and are try-
ing to get a supply of fuel from other
sources.

The conference committee of the
National Brotherhood of Operative
Potters were to meet a committee
from the sanitary manufacturers today
to revise the present sanitary list at
Trenton. Since Wednesday the commit-
tee has been busy collecting statistics
from the various plants and has all the
necessary material for the formation
of a new list. The meeting is expected
to be a harmonious one, and if it suc-
ceeds in forming a uniform price list
it will remove the causes for many
petty differences which have arisen
during the past year.

The Southern Sewer Pipe company
is a new concern that has commenced
the erection of a large plant at Bir-
mingham, Ala. The plant will have a
capacity of 26 kilns and the contract
for the erection has been let to
Charles A. Bray, of Toronto, who left
Saturday evening in company with
William Cadman and John Brown, of
New Cumberland, for Birmingham to
build the kilns. Over 5,000,000 brick
will be used in the construction of the
kilns.

From the manufacture of his class
art ware to the production of a line of
general ware, has been announced as
being the future policy of the Vance
Pottery company, of Tilton-
ville. Moulds are now being made for
the new dinner and toilet sets that will
be placed on the market by this firm.

Adolph Miller, formerly of this city,
but now located at Akron, may estab-
lish a novelty works in this city. He
has been experimenting with clays
found in this section, and is of the
opinion that some excellent ware can
be made from such a body.

Local No. 48, warehousemen, will
hold their regular meeting this even-
ing in the Knights of Columbus hall.
This will be the first meeting of this
local since last Friday a week. The
new officers will be elected at the ses-
sion this evening.

During the past few days the follow-
ing salesmen have returned to the
city: Col. J. W. Aymar and W. F.
Wetherell, of the East Liverpool Pot-
teries company; Cecil Taylor, George
C. Pugh and A. J. Knorr, of the Taylor
plant, at Chester.

The Wilsonville Pottery company is
a new concern which is to locate at
Trenton. The building that will be
used for this purpose has for years
been occupied as a sagger manufac-
tory. B. F. Walton is the president.

The Trenton art school announces
that a course in china painting will
be given at the opening of the next
school season. The study of ceramics
will also be an addition to the course
in this school.

Commencing July 1 the Bell pottery
at Findlay will close for about two
months. Work, however, is to be rush-
ed in the erection of the plant this
company proposes to operate at Col-
umbus.

Kildravers' local No. 17, at a meet-
ing in Brotherhood hall Saturday even-
ing, obligated one new member and

acted upon several applications. The
first nominations for officers for the
new term were made at this session.
The election will be held next Satur-
day evening.

Now that the warehousemen have
decided to meet on Monday evenings,
no less than five locals meet on that
evening, while only three meet on Fri-
day evenings.

Samuel Mayer, who has been em-
ployed at the D. E. McNicol plant for
several years as a glost kilnman, will
soon be located at the Laughlin No. 2.

George Smith and Alexander Os-
bourne, who have been working on the
glost end at Brunt's, have been help-
ing out at the Union for a few days.

The manufacturing potters and the
operatives at Trenton have given \$500
toward the erection of a monument to
the memory of J. Hart Brewer.

"Narcissus" is the name of the new
dinner set now being made by the East
Liverpool Potteries company at the
Wallace & Chetwynd factory.

The meeting of jiggermen's local No.
12, which will be held in Brotherhood
hall tomorrow evening, will be quite
an important session.

John Wood, Sr., claymaker at the
Diamond, who has been at New Castle
visiting his sons for a few days, has
returned to the city.

In the new sanitary shop that is be-
ing built at Trenton by B. F. Walton
& Co., 25 pressers will be employed.

George Cox, formerly an oddman at
Goodwin's, has taken a position as
night watchman at the Union.

A small fire occurred at the Mad-
dock pottery at Trenton a few days
ago.

FIFTEEN ARRESTS

RECORD BREAKING POLICE BUSINESS IN WELLSVILLE.

Two Alleged Disorderly Resorts Raided and Numerous Persons Jailed.

The police force of this city under the able management of Chief Thorn made a record for Saturday night arrests last Saturday evening. They succeeded in bringing in no less than nine women and six men. The mayor also performed his duty and got rid of nearly all of them in less than 24 hours' time. The fines imposed amounted to over \$200.

Chief Thorn, when asked regarding the matter, said that as far as he could remember, the number of arrests last Saturday night far surpassed that of any night during his service.

The alleged disorderly resort on second street kept by Julie Dennis was raided and a number of girls taken to the mayor's office. A house on Coal street that was run until recently by a woman called "Peg," but now in charge of a Pittsburg woman, was raided and a half dozen young women taken to see the mayor. At each place several men escaped precipitately when the officers appeared.

Three men were arrested by Houser and Davis for fighting in Sam Brubaker's saloon on Third street Saturday evening. They were John Holliday, F. L. Smith and a man by the name of Barr.

Brady Dorff was arrested on Main street by Houser and Davis. Dorff was insensibly drunk and had to be carried to the station.

Two men, who gave their names as McCoach and McMullen, were arrested by Officers Thorn and Davis for drunk and disorderly conduct. They belong in East Liverpool.

Fred Lodge was arrested early Sunday morning for prowling in an alley by Officers Houser and Elliott.

Thomas Haney was arrested at his home, Fifteenth and Main street, by Officers Henthorne and Davis. Haney is a roofer and works in Chester, but went home with a jag Saturday evening and proceeded to thrash his wife. She was so cruelly beaten that Dr. Hutchison was summoned to dress her injuries. Her cries aroused the neighbors and the police arrested Haney, who struck Henthorne with a heavy pitcher.

Children's Day Services.

Very interesting Children's day services were held at the Evangelical church last evening. The church was finely decorated. An appropriate address was made by the pastor, Rev. W. A. Vandersall. There were songs and recitations by the children. The program had been arranged by Mrs. Cynthia Fuller and was most creditable. The exercises will be repeated next Sunday evening at the Third street mission.

The Sewer Inspected.

N. E. Riggs, the civil engineer employed by the council to assist Engineer Leith in making a thorough inspection of the completed sanitary sewer, has returned to Cleveland. Mr. Riggs made a careful inspection and is satisfied that Irwin Bros. did a commendable job.

Petitions for Paving.

A very important matter will likely be brought to the attention of council at their meeting this evening. It is stated that the property owners of Sixth and Seventh streets have signed up petitions to be presented to council, asking for the paving of each street.

Hurt in Repair Shops.

R. J. Bell, at the C. & P. shops, was removing a coupling from a car when the heavy piece slipped. The ends were cut off the two middle fingers.

POULTRY POINTERS.

Game chickens have more meat in proportion to their height than any other breed of fowls.

When the chickens are growing fast, it is a good plan to mix a little bone meal in their soft feed.

Smearing whole wheat with kerosene or turpentine and feeding it to the chickens is a good remedy for gapes.

Adding some carboic acid and putting on hot will secure much better results from the whitewashing of the poultry house.

While it is at no time advisable to keep food of any kind before the fowls all the time, it will be an advantage to keep milk where they can drink all they want.

Fowls do not run together in large numbers. They will always divide into flocks of small size and will select different feeding grounds, always provided they have the opportunity.

A growing chicken, like a growing animal, requires plenty of good, wholesome food supplied liberally and often in order to enable them to grow and mature rapidly and to develop properly.

There Was a Limit.

"I am glad they moved away," remarked the good housewife, speaking of a family of borrowing neighbors who had just left the neighborhood. "I was willing to lend them a loaf of bread occasionally or half a dozen eggs or the washboard or the lemon squeezer, but when they got down to sending the little girl over to borrow pennies to give the organ grinder I began to think it was nearly time to draw the line; and, to cap the climax, one day they actually asked me to come over and take care of the baby while they went out to do the shopping!"

Uncertain About Her Age.

A Boston servant, like many of her class, does not know her age. She has lived with one family eleven years and has always been twenty-eight. "Indeed, I can't remember the time when I wasn't alive."—Boston Christian Register.

Predicted for Holliday's Cove and Vicinity—New Industrial Town.

Regarding Holliday's Cove prospects the New Cumberland Independent says: "For many years past the great Cove valley has been looked upon by careful observers as a magnificent site for a town. Now a great tract of 1,500 acres, including the big Crawford farm of 6,000 acres, the Hooker farm of 400 acres, the Lee, Griffith and other farms have been purchased by Cyrus Ferguson, an extensive oil operator, presumably for a syndicate of capitalists, with a view to establishing a town site with extensive factories. Its natural location is a desirable one.

"With the great Pan Handle railroad near at hand, and the Cumberland branch forming a junction at that point, Holliday's Cove is a natural location for the homes of railroad people, even at the present time. With the extension of the branch northward with connecting lines, and its conversion into a great freight division, the Cove valley will be the natural location for extensive freight yards, and in fact must necessarily become such."

THE GAME OF GAMES.

Golf, Says This Writer, Involves Art, Science and Inspiration.

It is true that there is a point of view from which golf may be regarded as an extremely simple game—the very simplest of all the games with a ball and a club, says William G. Brown in the June Atlantic. The player's object is simple and single to the point of simple mindedness and singularity, one might say—to put a small ball in a small hole with the fewest possible strokes. But so are the objects of the highest ambitions, the guiding stars of careers the most perplexed and devious. It is true, likewise, that all the countless strokes a golfer makes are resolvable into three kinds of stroke—driving, approaching and putting. But Mr. Everard, in a lecture unsurpassed for truth and brilliancy by any in all the extremely clever literature of golf, has declared that to make those three strokes right one must have "art, science and inspiration."

From the moment the ball leaves the tee, whether it be topped, pulled or sliced or whether, struck in proper fashion a trifle below the medial line and urged forward with an exquisite free lashing out of the wrists, it takes flight as with wings and seeks its true course as with a mind and purpose of its own until it drops into the cup with a tintinnabulation that no louder clang or pean ever surpassed in its suggestion of victory and consummation, there is no foreseeing what perplexity or temptation to carelessness or overconfidence it will present.

Not twice off the tee ground and the putting green will the possibilities and probabilities of the stroke be quite the same. In the lie, the wind, the distance to be traversed, the obstacles to be carried, there are variations not to be reckoned by any known mathematics.

Then, as the match approaches its dreadfully quiet climax of defeat or victory, the responsibility may grow positively appalling. The very deliberation which, impossible in most games, is so characteristic of this, so far from lessening the strain on one's nerves, undoubtedly heightens it. One has time to estimate the emergency, to realize the crisis.

Not the fiercest rally at tennis, not the longest and timeliest home run at baseball, not the most heroic rush at football, requires a more rigid concentration of thought and energy or a more dauntless courage than the flick of a putter that sends the ball crawling on its last little journey across the putting green when the put is for the hole and the hole means the match. There is not a quality of mind or body—I will not except or qualify at all—not one, that life itself proves excellent which a circuit of the links will not test.

The Declaration.

It is a rather curious fact that while facsimiles of the Declaration of Independence were common enough several years ago and were largely used for advertising purposes they are now very scarce—so scarce that a Philadelphia collector recently paid \$10 for one bearing the advertisement of a western railroad. The original document, preserved in glass, is still to be seen in the possession of the department of state in Washington, but it has become so faded as to be nearly illegible, by reason of which a photographic reproduction would be valueless. James D. McBride had plates made and secured a copyright on them in 1874, but these plates were later destroyed by fire, and none are now in existence. Consequently the copies that have been preserved are constantly increasing in value.—Philadelphia Record.

A PET ECONOMY.

Almost Every Man Maintains One, Small Though It May Be.

"Got a match about you?" asked the bookkeeper of the chief buyer.

"Wonder you wouldn't buy matches once in awhile!" growled the buyer. "I've been supplying you with matches for years."

"I never buy matches—never have and never will," said the bookkeeper. "It is my pet economy. Most every man has one."

And the bookkeeper was right. Nearly every man has a pet economy and will go to a great length to indulge it. At the Union club they still tell of a worthy old member who was particular about using a certain kind of soap, but was not willing to buy it. They used the soap at the club, and he appropriated the cakes as fast as he needed them. He needed so many that the steward changed the brand.

The same spirit of economy in small things makes other people stuff themselves with bread in order that no butter may be left on their plate and wasted. Hundreds of men would not dream of buying a bad pencil. To save buying stationery others write their letters at hotels which are generous in providing writing materials. Scores of men and women save pennies by picking up discarded newspapers in the elevated trains and ferryboats. And so it goes. It is not so much the actual money saved that moves people in these little schemes; rather an inborn desire to economize in something.

But to return to the bookkeeper, the buyer and the matches. The bookkeeper continued:

"You are stingy with your old matches. I'll just take a lot, and then I'll be independent of you."

Then he emptied out half the box.—New York Tribune.

SHOES.

Never wear a shoe that pinches the heel.

Never wear a shoe or boot tight anywhere.

Never come from high heels to low heels at one jump.

Never wear a shoe that will not allow the great toe to lie in a straight line.

Never wear leather sole linings to stand upon. White cotton drilling or linen is healthier.

Never wear a shoe with a sole narrower than the outline of the foot traced with a pencil close under the rounding edge.

Never wear a shoe with a sole turning up very much at the toes, as this causes the cords on the upper part of the foot to contract.

Never have the top of the boots tight, as it interferes with the action of the calf muscles, makes one walk badly and spoils the shape of the ankle.

Never think that the feet will grow large from wearing proper shoes. Pinching and distorting make them grow not only large, but unsightly. A proper natural use of all the muscles makes them compact and attractive.

THE GAME OF GAMES.

Golf, Says This Writer, Involves Art, Science and Inspiration.

It is true that there is a point of view from which golf may be regarded as an extremely simple game—the very simplest of all the games with a ball and a club, says William G. Brown in the June Atlantic. The player's object is simple and single—the point of simple mindedness and singularity, one might say—to put a small ball in a small hole with the fewest possible strokes. But so are the objects of the highest ambitions, the guiding stars of careers the most perplexed and devils. It is true, likewise, that all the countless strokes a golfer makes are resolvable into three kinds of stroke—driving, approaching and putting. But Mr. Everard, in a lecture unsurpassed for truth and brilliancy by any in all the extremely clever literature of golf, has declared that to make those three strokes aright one must have "art, science and inspiration."

From the moment the ball leaves the tee, whether it be topped, pulled or sliced or whether, struck in proper fashion a trifle below the medial line and urged forward with an exquisite free lashing out of the wrists, it takes flight as with wings and seeks its true course as with a mind and purpose of its own until it drops into the cup with a tintinnabulation that no louder clang or pean ever surpassed in its suggestion of victory and consummation, there is no foreseeing what perplexity or temptation to carelessness or overconfidence it will present.

Not twice off the tee ground and the putting green will the possibilities and probabilities of the stroke be quite the same. In the lie, the wind, the distance to be traversed, the obstacles to be carried, there are variations not to be reckoned by any known mathematics.

Then, as the match approaches its dreadfully quiet climax of defeat or victory, the responsibility may grow positively appalling. The very deliberation which, impossible in most games, is so characteristic of this, so far from lessening the strain on one's nerves, undoubtedly heightens it. One has time to estimate the emergency, to realize the crisis.

Not the fiercest rally at tennis, not the longest and timeliest home run at baseball, not the most heroic rush at football, requires a more rigid concentration of thought and energy or a more dauntless courage than the flick of a putter that sends the ball crawling on its last little journey across the putting green when the put is for the hole and the hole means the match. There is not a quality of mind or body—I will not except or qualify at all—not one, that life itself proves excellent which a circuit of the links will not test.

The Declaration.

It is a rather curious fact that while facsimiles of the Declaration of Independence were common enough several years ago and were largely used for advertising purposes they are now very scarce—so scarce that a Philadelphia collector recently paid \$10 for one bearing the advertisement of a western railroad. The original document, preserved in glass, is still to be seen in the possession of the department of state in Washington, but it has become so faded as to be nearly illegible, by reason of which a photographic reproduction would be valueless. James D. McBride had plates made and secured a copyright on them in 1874, but these plates were later destroyed by fire, and none are now in existence. Consequently the copies that have been preserved are constantly increasing in value.—Philadelphia Record.

A PET ECONOMY.

Almost Every Man Maintains One, Small Though It May Be.

"Got a match about you?" asked the bookkeeper of the chief buyer.

"Wonder you wouldn't buy matches once in awhile?" growled the buyer. "I've been supplying you with matches for years."

"I never buy matches—never have and never will," said the bookkeeper. "It is my pet economy. Most every man has one."

And the bookkeeper was right. Nearly every man has a pet economy and will go to a great length to indulge it. At the Union club they still tell of a worthy old member who was particular about using a certain kind of soap, but was not willing to buy it. They used the soap at the club, and he appropriated the cakes as fast as he needed them. He needed so many that the steward changed the brand.

The same spirit of economy in small things makes other people stuff themselves with bread in order that no butter may be left on their plate and wasted. Hundreds of men would not dream of buying a lead pencil. To save buying stationery others write their letters at hotels which are generous in providing writing materials. Scores of men and women save pennies by picking up discarded newspapers in the elevated trains and ferryboats. And so it goes. It is not so much the actual money saved that moves people in these little schemes; rather an inborn desire to economize in something.

But to return to the bookkeeper, the buyer and the matches. The bookkeeper continued:

"You are stingy with your old matches. I'll just take a lot, and then I'll be independent of you."

Then he emptied out half the box.—New York Tribune.

SHOES.

Never wear a shoe that pinches the heel.

Never wear a shoe or boot tight anywhere.

Never come from high heels to low heels at one jump.

Never wear a shoe that will not allow the great toe to lie in a straight line.

Never wear leather sole linings to stand upon. White cotton drilling or linen is healthier.

Never wear a shoe with a sole narrower than the outline of the foot traced with a pencil close under the rounding edge.

Never wear a shoe with a sole turning up very much at the toes, as this causes the cords on the upper part of the foot to contract.

Never have the top of the boots tight, as it interferes with the action of the calf muscles, makes one walk badly and spoils the shape of the ankle.

Never think that the feet will grow large from wearing proper shoes. Pinching and distorting make them grow not only large, but unsightly. A proper natural use of all the muscles makes them compact and attractive.

BEATEN WITH GREAT EASE

The Largest Crowd of the Season Witnessed the Game—The East Liverpool Boys Acquitted Themselves With Great Credit.

In a very one-sided exhibition that famous New Cumberland base ball team lost to the locals in West End park Saturday afternoon by a score of 11 to 3. The boys from the sewer pipe town, having been heralded as the best team in this section of the country, almost every fan in the city was present when the game was called. They were heard to say along about the middle of the game, "I'll bet that I don't get fooled down here again, to see a game between Walsh's team and a team within 40 miles of this city."

It was exactly 4:30 when the game was started, the visitors not arriving on the grounds until 4:15 and then they thought that at least 15 minutes should be given them to learn the lay of the land. It is now the general opinion that they should have been allowed at least a week. There was really but one pleasing feature of the whole performance. That was its brevity.

The visitors were never allowed to hold the bat longer than five minutes and usually three was the limit. Why they didn't put up a better game under the existing circumstances is certainly a mystery. Their lineup consisted mostly of East Liverpool boys and the cream of Hancock county. The former contingent should have been enough to win, but probably it was due to their associates. Where were the 200 fans that they talked so long and loud about? They surely stayed at home, and excellent good judgment they used. It was bad enough for the team that has done more crowing than any aggregation in the valley to return home with feathers down, without mentioning what the rooters would have been compelled to do.

For the first time this season the grand stand was filled to its utmost capacity. The day was an ideal one and all friends of the players on each team took advantage of being present. It is estimated that there were over 600 in the park and at least 20 per cent of them were ladies. During the first half of the contest excitement was evident to a small degree, but from the sixth inning until the close every one knew what the result would be, and the visitors were compelled to play with not only the local team against them, but the enthusiasts.

Golwin is now a resident of New Cumberland and of course played at short for them. It was just as well. Of late he has cut out his old time sensational playing and has substituted the lining up of errors. In this game he got three of them credited, which exceeds by one the number he has made in every game he has played on the local diamond this season. The man who played at third, Brandon by name, failed in his great effort to make a hit with the ladies. His hair was long and pretty enough, but when it came to being there with the goods he fell short and started away back.

Every man on the local team acquitted himself to the satisfaction of even Mr. Robinson, the New Cumberland roofer from Sebring. Mahey held up as usual, getting nine strikeouts, three assists, one put out, one hit and a run. Harker played in a manner not common with the local team. They will have to study the young man and maybe when he whirls around and throws one to third in the future there will be some one there to stop it. Davis could hardly be blamed for being paralyzed when he saw the ball speeding over the base. He simply was not dreaming of that kind of a play. He is "next" now and not likely to repeat the error.

A COLORED MAN'S DEGREE

Moses Leonard Frazier, of Alliance, Born in Slavery, Honored By a University.

New York, June 16.—Among the advanced degrees given by Columbia university at commencement, none, perhaps, represented more energy and perseverance than that of master of arts, bestowed upon Moses Leonard Frazier.

Frazier is a negro, and is said to be the only one ever graduated from the school of political science of Columbia. He was born in slavery, in New Orleans, 42 years ago.

Frazier worked 20 years at chirology to save money enough for his college course. He entered Mt. Union college, Alliance, O., and received a degree of bachelor of philosophy, in 1896. Then he went to Harvard, but did not like it, and entered the New York law school and received the degree of bachelor of laws, returning later to Mt. Union and securing a master's degree in philosophy.

GLASS WORKS AT SEBRING

Reports That Such a Plant Will Be Built Instead of New Pottery.

It is definitely decided to build glass works at Sebring for the manufacture of table glassware, and the Sebrings are now on the lookout for a competent manager. They have been to Pittsburg lately after such a man. It was thought best to make glass works take the place of a second pottery in order to diversify industries. The building of the works will proceed as soon as the plans are completed.

Road Law's Validity Questioned.

The ruling of the circuit court on road cases in Cuyahoga and Hamilton counties, holding unconstitutional a recent road law abolishing the office of road supervisor, is said to be also applicable to the new law for Columbiana and Stark in regard to the above matter. The court held the act to be "a local law on a general subject."

ADA TELLS DAVIS OF MURDERERS

Says Two of the Men Wanted Were

Killed in Battle With Americans and One Escaped—American Sentry Badly Cut by a Moro.

Manila, June 16.—General Davis, the commander of the American forces on the island of Mindanao, has been informed by Datto Ada that two of the three Moros who murdered the American soldier named Lewis were killed in the engagement at Bazan between Moros and Americans last May, and that the other murderer has disappeared.

An American sentry belonging to the engineers was badly cut with a bolo in the hands of a Moro while on duty near Vicars.

Several Dattos under the sultan of Mindanao have called upon Colonel Frank D. Baldwin, of the Twenty-seventh infantry, and have asked him for American flags. This action on the part of the Dattos was considered equivalent to taking the oath of allegiance to the United States.

FIVE AMERICANS MURDERED.

Natives Said Report Was Correct as to Americans and Natives Captured.

Manila, June 16.—Friendly natives in Manila said a report was current that their countrymen and the five soldiers of the Fifth cavalry who were captured by the insurgents, May 30, had been bled to death near Teresa, in Morong province, Luzon. This had not been confirmed by the American authorities of that district.

Twenty-five members of a band of insurgents who were captured while fighting with General Lukban in Samar took the oath of allegiance to the United States and were subsequently released. Four members of the band were killed in the engagement which resulted in the capture of their companions. The 25 who had sworn allegiance sent for General Chaffee and promised to give him all the assistance in their power in the work of maintaining the present peace conditions in Samar.

A commission was sent to Samar to appoint Senor Llorentes governor of the island and to establish civil government there. It is expected that a general amnesty will be declared July 4. This amnesty will result in the release of the Filipino prisoners now on the island of Guam.

The prospects in the island of Leyte for a speedy termination of the armed resistance there were bright.

A COLORED MAN'S DEGREE

Moses Leonard Frazier, of Alliance,
Born in Slavery, Honored By
a University.

New York, June 16.—Among the ad-
vanced degrees given by Columbia uni-
versity at commencement, none, per-
haps, represented more energy and
perseverance than that of master of
arts, bestowed upon Moses Leonard
Frazier.

Frazier is a negro, and is said to
be the only one ever graduated from
the school of political science of Col-
umbia. He was born in slavery, in
New Orleans, 42 years ago.

Frazier worked 20 years at chirop-
ody to save money enough for his col-
lege course. He entered Mt. Union
college, Alliance, O., and received a
degree of bachelor of philosophy, in
1896. Then he went to Harvard, but
did not like it, and entered the New
York law school and received the de-
gree of bachelor of laws, returning
later to Mt. Union and securing a
master's degree in philosophy.

DATTOS WANT FLAGS

Considered Equivalent to Tak-

ADA TELLS DAVIS OF MURDERERS

Says Two of the Men Wanted Were
Killed in Battle With Americans
and One Escaped—American Sentry
Caddy Cut by a Moro.

Manila, June 16.—General Davis,
the commander of the American
forces on the island of Mindanao, has
been informed by Datto Ada that two
of the three Moros who murdered the
American soldier named Lewis were
killed in the engagement at Bazan
between Moros and Americans last
May, and that the other murderer has
disappeared.

An American sentry belonging to
the engineers was badly cut with a
bolo in the hands of a Moro while on
duty near Vicars.

Several Dattos under the sultan of
Mindanao have called upon Colonel
Frank D. Baldwin, of the Twenty-sev-
enth infantry, and have asked him for
American flags. This action on the
part of the Dattos was considered
equivalent to taking the oath of al-
legiance to the United States.

FIVE AMERICANS MURDERED.

Natives Said Report Was Correct as
to Americans and Natives
Captured.

Manila, June 16.—Friendly natives
in Manila said a report was current
that their countrymen and the five
soldiers of the Fifth cavalry who were
captured by the insurgents, May 30,
had been bled to death near Teresa,
in Morong province, Luzon. This had
not been confirmed by the American
authorities of that district.

Twenty-five members of a band of
insurgents who were captured while
fighting with General Lukban in Sa-
mar took the oath of allegiance to
the United States and were subse-
quently released. Four members of
the band were killed in the engage-
ment which resulted in the capture
of their companions. The 25 who
had sworn allegiance sent for Gen-
eral Chaffee and promised to give
him all the assistance in their power
in the work of maintaining the pre-
sent peace conditions in Samar.

A commission was sent to Samar
to appoint Senor Llorentes governor
of the island and to establish civil
government there. It is expected that
a general amnesty will be declared
July 4. This amnesty will result in
the release of the Filipino prisoners
now on the island of Guam.

The prospects in the island of
Leyte for a speedy termination of the
armed resistance there were bright.

GLASS WORKS AT SEBRING

Reports That Such a Plant Will Be
Built Instead of New
Pottery.

It is definitely decided to build glass
works at Sebring for the manufacture
of table glassware, and the Sebrings
are now on the lookout for a compe-
tent manager. They have been to
Pittsburg lately after such a man. It
was thought best to make glass works
take the place of a second pottery in
order to diversify industries. The
building of the works will proceed as
soon as the plans are completed.

Road Law's Validity Questioned.

The ruling of the circuit court on
road cases in Cuyahoga and Hamilton
counties, holding unconstitutional a re-
cent road law abolishing the office of
road supervisor, is said to be also ap-
plicable to the new law for Colum-
biana and Stark in regard to the above
matter. The court held the act to be
"a local law on a general subject."

CHRIST THEIR LIGHT.

Believers in Christian Science
Hold Communion Services
at Boston, Mass.

13,000 PEOPLE IN ATTENDANCE.

Message Received From Rev. Mary Baker Eddy—Telegram Sent in Return, Spoke of Her Humble, Chastened Obedience to God.

Boston, June 16.—The annual communion service of the mother church of the Christian Science denomination in Mechanics' hall Sunday were attended by about 13,000 people, 7,000 at the morning service and 6,000 during the afternoon. The principal feature of the service was a message from the pastor emeritus, the Rev. Mary Baker Eddy.

Another important feature was a telegram expressing gratitude and appreciation to Mrs. Eddy, which was put in the form of a motion and unanimously adopted by the audience rising in their places.

This telegram, addressed to her in Concord, N. H., says:

"For more than 30 years your voice and pen have proclaimed that God, who hath done all things well, has ordained for no man no law but the law of life and holiness. During these years your constant plea has been the voice of righteousness to this day and generation, entreating for a higher and more genuine morality; for the obliteration of sin; for the daily life in imitation of Christ; for a better citizenship, the tranquility of nations and the reign of Christ on earth.

"Your ministry has been to preach Christ's theology which promises to destroy all the works of the devil, including sickness and sin. Because your consistent daily life has been for us an example of lofty purpose, of unflinching love and of humble, chastened obedience to God, we desire to thus make known our profound appreciation and to manifest to you our reasonable gratitude and thanksgiving."

CARDINALS ARE NAMED.

Will Examine Propagation Regarding Philippine Questions and Report

Rome, June 16.—The sub-commission of cardinals which will examine the propositions presented to the Vatican by William H. Taft, civil governor of the Philippine islands, who is in Rome for the purpose of reaching a friendly understanding with the Vatican authorities regarding the disposition of the property of the religious orders and other church property in the Philippine islands, will meet Tuesday. It is expected that the commission will relate the purport of their examinations to the pope, June 18.

The commission is composed as follows: Cardinal Rampolla, papal secretary of state; Cardinals Vives y Tuto, Steinhuber, Gotti and Vannutelli. Cardinal Rampolla has assured Civil Governor Taft that the matter will be concluded not later than June 30.

Judge Taft and his party were entertained Saturday evening at dinner at the American embassy.

HONOR FOR CATHOLIC LAYMAN.

Smith to Get LL. D.—Name May Be Presented to Pope For Knighthood.

NEW CASTLE MAN'S CRIME.

Murdered a Woman, Then Was Killed Struggling With Another Over Revolver.

Philadelphia, June 16.—Mrs. Rachel Saylor, a widow, was yesterday shot and killed at Coatesville, Pa., 40 miles west of here, by Harry N. Rice, of New Castle, Pa., who was also killed by a bullet from his revolver while struggling with another woman for possession of the weapon. The tragedy, it is said, was the result of a quarrel. Rice was employed by a Pittsburg firm of contractors who are building a new steel plant at Coatesville. He was regarded as Mrs. Saylor's accepted suitor. Saturday night Rice visited the woman and they are said to have quarreled. Mrs. Saylor ordered him from the house and she went to the home of Mrs. Mary L. Ernest to spend the night.

Yesterday Rice appeared at the house and demanded an interview with Mrs. Saylor. She declined to receive him and was dismissing him at the door, when he drew a revolver from his pocket and shot her through the heart. He then, it is claimed, aimed the revolver at Mrs. Ernest, who grappled with him. During the struggle the pistol was discharged, the bullet taking effect in Rice's head, killing him almost instantly.

The coroner found letters in Rice's pockets signed "Alma," which indicated that he was engaged to be married to a young woman in Columbus, O.

SOLDIER BURIED WITH HONORS

Father Found Skeleton of Boy Murdered by Filipinos, in Swamp.

Baltimore, June 16.—The remains of Hamlet Jarvis, Jr., formerly a member of the Thirty-fifth volunteer infantry in the Philippines, who was murdered two years ago by insurgents, were buried here yesterday. In October, 1900, Jarvis was one of several American soldiers, who left Balingas as an escort to Jose Buen camino, presidente of San Miguel de Mayumo.

The whole party was captured, taken into a swamp and assassinated with daggers. Subsequently two of the insurgent murderers, Timoteo Dhalan and Manuel Gonzales, were executed for the crime, but they refused to tell where the bodies were hidden. Dr. Hamlet Jarvis, the father of young Jarvis, who resides here, was a scout, who was employed by the body of his son, employing scouts and spending a great deal of money to that end. A few months ago he succeeded in finding his son's skeleton in a swamp and it was brought here for interment. The remains were buried with military honors by Company A, Fifth Maryland regiment, of which young Jarvis was a member during the war with Spain.

KING OF ENGLAND ILL.

Edward VII Suffered Chill From Exposure—Symptoms of Lumbago Appeared.

London, June 16.—King Edward yesterday was suffering from a chill which prevented him from attending yesterday's church parade of the Aldershot garrison.

The chill came as a result of the king's prolonged stay outdoors Saturday night upon the occasion of the torchlight tattoo at Aldershot. The chill was a slight one, accompanied by symptoms of lumbago.

The weather Saturday night was extremely cold and it rained at intervals before their majesties left the brigade recreation ground. King Edward returned to his apartments chilled from the unwanted exposure.

These reports of his majesty's illness naturally caused apprehension, but there was apparently no reason to anticipate serious results.

An authentic statement from Aldershot last evening was to the effect that King Edward was slightly indisposed, but that his indisposition was not of a serious nature.

DEMOCRATS HELD CONFERENCE.

Pennsylvanians Drafted Planks For Coming Convention—Fattison or Guthrie May Be Chosen.

Atlantic City, N. J., June 16.—An important political conference was held here Sunday at the Garden hotel by leading Pennsylvania Democrats, which will have an important bearing upon the action of the coming state convention at Erie, as well as the gubernatorial campaign in the state. Those present at the conference were: Dallas Sanders, of Philadelphia, who acted as chairman of the meeting; William J. Brennan, of Pittsburg; John J. Green, attorney for the Philadelphia city committee; former State Chairman John S. Rilling, of Erie; Robert E. Wright, of Lehigh; George W. Guthrie, of Pittsburg; Charles P. Donnelly, city chairman of Philadelphia; Congressman J. K. P. Hall, of Ridgeway, and former State Chairman Kerr, of Clarfield.

Various measures having to do with the ballot reform, personal registration and primary election laws were discussed and the general outline of the plank in the Democratic state platform dealing with ballot reform was drafted. Members of the conference stated that it was a concrete unambiguous declaration.

It was positively stated last evening by Mr. Hall that he would not allow the use of his name for the governorship at this time, and while Mr. Guthrie was non-committal, yet he and former Governor Robert E. Pattison are looked upon as the most available and strongest candidates for the party. It was the consensus of opinion here that one of them will be chosen as the standard bearer.

GOMEZ GOT \$25,000?

Alleged He Received It For Not Opposing Palma's Election.

Washington, June 16.—Regarding the story emanating from New Orleans Saturday that General Gomez received a \$25,000 bribe from the administration to withdraw from the Cuban campaign, thereby permitting the election of Estrada Palma, it was stated Saturday night, by an official close to President Roosevelt, that he had never before heard of it. Secretary Hay said that he had not received the slightest intimation of it from any source.

In the latter part of May it was announced from Washington that such a grant of money had been made. Now the attempt is made to show that the payment to Gomez was authorized as a bribe not to make trouble, and thus put in danger Mr. McKinley's re-election in 1900. The man who makes the new charges is a former correspondent at Havana. He was in this city Friday, and said: "I know just where the check for this sum of money can be found; I know right where to lay my hands on it."

Boston, June 16.—General Leonard Wood Saturday night said there was nothing to the New Orleans story that a sum of money was paid to General Gomez in order that he might not oppose Tomas Estrada Palma.

CHRIST THEIR LIGHT.

Believers in Christian Science
Hold Communion Services
at Boston, Mass.

13,000 PEOPLE IN ATTENDANCE.

Message Received From Rev. Mary Baker Eddy—Telegram Sent In Return, Spoke of Her Humble, Chastened Obedience to God.

Boston, June 16.—The annual communion service of the mother church of the Christian Science denomination in Mechanics' hall Sunday were attended by about 13,000 people, 7,000 at the morning service and 6,000 during the afternoon. The principal feature of the service was a message from the pastor emeritus, the Rev. Mary Baker Eddy.

Another important feature was a telegram expressing gratitude and appreciation to Mrs. Eddy, which was put in the form of a motion and unanimously adopted by the audience rising in their places.

This telegram, addressed to her in Concord, N. H., says:

"For more than 30 years your voice and pen have proclaimed that God, who hath done all things well, has created for no man no law but the law of life and holiness. During these years your constant plea has been the voice of righteousness to this day and generation, entreating for a higher and more genuine morality; for the obliteration of sin; for the daily life in imitation of Christ; for a better citizenship, the tranquility of nations and the reign of Christ on earth.

"Your ministry has been to preach Christ's theology which promises to destroy all the works of the devil, including sickness and sin. Because your consistent daily life has been for us an example of lofty purpose, of unflinching love and of humble, chastened obedience to God, we desire to thus make known our profound appreciation and to manifest to you our reasonable gratitude and thanksgiving."

CARDINALS ARE NAMED.

Will Examine Proposition Regarding Philippine Questions and Report

Rome, June 16.—The sub-commission of cardinals which will examine the propositions presented to the Vatican by William H. Taft, civil governor of the Philippine islands, who is in Rome for the purpose of reaching a friendly understanding with the Vatican authorities regarding the disposition of the property of the religious orders and other church property in the Philippine islands, will meet Tuesday. It is expected that the commission will relate the purport of their examinations to the pope, June 18.

The commission is composed as follows: Cardinal Rampolla, papal secretary of state; Cardinals Vives y Tuto, Steinhuber, Gotti and Vannutelli. Cardinal Rampolla has assured Civil Governor Taft that the matter will be concluded not later than June 30.

Judge Taft and his party were entertained Saturday evening at dinner at the American embassy.

HONOR FOR CATHOLIC LAYMAN.

Smith to Get LL. D.—Name May Be Presented to Pope For Knighthood.

Pittsburg, June 16.—At the annual commencement exercises of Mt. St. Mary's college, Emmitsburg, Md., next Wednesday, Francis P. Smith, the veteran writing editor of the Pittsburg Catholic, will receive the degree of doctor of laws. The degree will be conferred by the Rt. Rev. Bishop Alfred Curtis. A special car of prominent clergymen and laymen, headed by A. V. Watterson, will leave here Tuesday to witness the ceremony.

At the centennial of Georgetown university in 1899, Mr. Smith received

NERVOUS EXHAUSTION

Read the following:

Mrs. G. L. Yager, of No. 152 Broadway, East Liverpool, Ohio, says: "Dr. A. W. Chase's medicines are all good. Past experience with them led me to use the doctor's Nerve Pills. I got them at Larkins' drug store, as I was nervous, run down, felt miserable and the heart action was weak and irregular. The medicine made me strong and my nerves steady. The heart action regular and strong, and altogether a different person, as I feel well and healthy again."

Dr. A. W. Chase's Nerve Pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medicine company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

from that institution the degree of A. M. Next year his name, it is said, will be presented to the pope for the purpose of having him knighted. Numerous bishops and prominent clergymen favor his being made a knight of St. George, which is one of the highest honors the church can bestow upon a layman.

NEW CASTLE MAN'S CRIME.

Murdered a Woman, Then Was Killed Struggling With Another Over Revolver.

Philadelphia, June 16.—Mrs. Rachel Sahlor, a widow, was yesterday shot and killed at Coatesville, Pa., 40 miles west of here, by Harry N. Rice, of New Castle, Pa., who was also killed by a bullet from his revolver while struggling with another woman for possession of the weapon. The tragedy, it is said, was the result of a quarrel. Rice was employed by a Pittsburg firm of contractors who are building a new steel plant at Coatesville. He was regarded as Mrs. Sahlor's accepted suitor. Saturday night Rice visited the woman and they are said to have quarreled. Mrs. Sahlor ordered him from the house and she went to the home of Mrs. Mary L. Ernest to spend the night.

Yesterday Rice appeared at the house and demanded an interview with Mrs. Sahlor. She declined to receive him and was dismissing him at the door, when he drew a revolver from his pocket and shot her through the heart. He then, it is claimed, aimed the revolver at Mrs. Ernest, who grappled with him. During the struggle the pistol was discharged, the bullet taking effect in Rice's head, killing him almost instantly.

The coroner found letters in Rice's pockets signed "Alma," which indicated that he was engaged to be married to a young woman in Columbus, O.

SOLDIER BURIED WITH HONORS

Father Found Skeleton of Boy Murdered by Filipinos, In Swamp.

Baltimore, June 16.—The remains of Hamlet Jarvis, Jr., formerly a member of the Thirty-fifth volunteer infantry in the Philippines, who was murdered two years ago by insurgents, were buried here yesterday. In October, 1900, Jarvis was one of several American soldiers, who left Balingas as an escort to Jose Buen camino, presidente of San Miguel de Mayumo.

The whole party was captured, taken into a swamp and assassinated with daggers. Subsequently two of the insurgent murderers, Timoteo Dibalán and Manuel Gonzales, were executed for the crime, but they refused to tell where the bodies were hidden. Dr. Hamlet Jarvis, the father of young Jarvis, who resides here, was the father of young Jarvis, who resides here. He was the father of young Jarvis, who resides here. KING OF ENGLAND ILL.

Edward VII Suffered Chill From Exposure—Symptoms of Lumbago Appeared.

London, June 16.—King Edward yesterday was suffering from a chill which prevented him from attending yesterday's church parade of the Aldershot garrison.

The chill came as a result of the king's prolonged stay outdoors Saturday night upon the occasion of the torchlight tattoo at Aldershot. The chill was a slight one, accompanied by symptoms of lumbago.

The weather Saturday night was extremely cold and it rained at intervals before their majesties left the brigade recreation ground. King Edward returned to his apartments chilled from the unwanted exposure. These reports of his majesty's illness naturally caused apprehension, but there was apparently no reason to anticipate serious results.

An authentic statement from Aldershot last evening was to the effect that King Edward was slightly indisposed, but that his indisposition was not of a serious nature.

DEMOCRATS HELD CONFERENCE.

Pennsylvanians Drafted Planks For Coming Convention—Fattison or Guthrie May Be Chosen.

Atlantic City, N. J., June 16.—An important political conference was held here Sunday at the Garden hotel by leading Pennsylvania Democrats, which will have an important bearing upon the action of the coming state convention at Erie, as well as the gubernatorial campaign in the state. Those present at the conference were: Dallas Sanders, of Philadelphia, who acted as chairman of the meeting; William J. Brennan, of Pittsburg; John J. Green, attorney for the Philadelphia city committee; former State Chairman John S. Rilling, of Erie; Robert E. Wright, of Lehigh; George W. Guthrie, of Pittsburg; Charles P. Donnelly, city chairman of Philadelphia; Congressman J. K. P. Hall, of Ridgeway, and former State Chairman Kerr, of Clarfield.

Various measures having to do with the ballot reform, personal registration and primary election laws were discussed and the general outline of the plank in the Democratic state platform dealing with ballot reform was drafted. Members of the conference stated that it was a concrete, unambiguous declaration.

It was positively stated last evening by Mr. Hall that he would not allow the use of his name for the governorship at this time, and while Mr. Guthrie was non-committal, yet he and former Governor Robert E. Pattison are looked upon as the most available and strongest candidates for the party. It was the consensus of opinion here that one of them will be chosen as the standard bearer.

GOMEZ GOT \$25,000?

Alleged He Received It For Not Opposing Palma's Election.

Washington, June 16.—Regarding the story emanating from New Orleans Saturday that General Gomez received a \$25,000 bribe from the administration to withdraw from the Cuban campaign, thereby permitting the election of Estrada Palma, it was stated Saturday night, by an official close to President Roosevelt, that he had never before heard of it. Secretary Hay said that he had not received the slightest intimation of it from any source.

In the latter part of May it was announced from Washington that such a grant of money had been made. Now the attempt is made to show that the payment to Gomez was authorized as a bribe not to make trouble, and thus put in danger Mr. McKinley's re-election in 1900. The man who makes the new charges is a former correspondent at Havana. He was in this city Friday, and said: "I know just where the check for this sum of money can be found; I know right where to lay my hands on it."

Boston, June 16.—General Leonard Wood Saturday night said there was nothing to the New Orleans story that a sum of money was paid to General Gomez in order that he might not oppose Tomas Estrada Palma.

RESOLUTION TO IMPROVE.

RESOLUTION DECLARING IT NECESSARY TO IMPROVE DRURY LANE FROM BROADWAY STREET TO MARKET STREET.

Resolved, By the City Council of the City of East Liverpool, Ohio, (two-thirds of the members elected to said Council concurring) that it is deemed necessary for said city to improve Drury lane from Broadway street to Mar-

ket street, in said city, by grading and paving with paving brick in accordance with the plans and profiles on file in the office of the City Engineer, and that the cost and expense of said improvement, less the cost and expense of improving street intersections and one-fifth of the entire cost and expense and such further sum as the Council may elect to collect by general taxation, shall be levied and assessed upon such abutting, adjacent and contiguous lands in said city, as the Council shall specify in the ordinance for such improvement; and the City Clerk is hereby directed to cause legal notice of the passage of this resolution to be served upon the proper persons, and publication of the resolution to be made, and make return as required by law.

All persons claiming damage from the foregoing improvement must file their claims thereto in the office of the City Clerk within four weeks from the first publication of this resolution, or within twenty days after the service of written notice of the passage of the same.

Passed this 11th day of June, 1902.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

A Daughter Born—Mr. and Mrs. Claude C. Smith, of Pennsylvania avenue, are rejoiced by the arrival of a little daughter at their home yesterday afternoon.

Probationers to Be Admitted—The probationers class of the First M. E. church next Sunday will be received into full membership. The class has been under instruction for the past six months.

Thanks Extended—At a regular meeting of General Lyon Post, No. 44, G. A. R., the adjutant was instructed to extend the thanks of the post to City Marshal Thompson for his able service in collecting funds to defray the expenses of Memorial Day, and also to citizens who contributed so liberally on that occasion.

A Young Wheelman Hurt—Wilbur Earl, a boy, rode his bicycle to the show grounds yesterday afternoon to see the animals. He also rode his wheel back home, but when riding along Fourth street the front wheel struck a stone, throwing Wilbur to the brick pavement. Wilbur now has a deep cut on his left arm just below the elbow.

A Big Purchase of Wool—Constable James Miller, who went to Mechanics-town, Pa., Saturday morning for the purpose of purchasing wool for a large eastern woolen mill company, returned home yesterday. While there he succeeded in contracting for not less than

15,000 pounds of wool, for which he paid from 16 to 50 cents a pound. The wool will be brought to this city and shipped east as soon as possible.

Rudely Awakened—While sitting on a stool in a local restaurant sleeping soundly due to an over-indulgence in corn juice, Charles Messer, of Chester, was rudely awakened by Officer Morris and taken by the aid of the patrol to more comfortable quarters in the city hall. RAILWAY WANTED

(Continued from First Page.)

Brookes is wrong. This \$5,000 is to be guaranteed to the street railway company by the Pleasant Heights Land company, and you can say so on my authority.

"Mr. Brookes goes on to say that it is not the residents of that district who are so much exercised in this matter but the land company. Now let me tell you just how much the North-side land company is interested. For two months prior to this company taking any action, the residents of the Pleasant Heights district were agitating the matter, having engaged counsel and held a number of meetings. To my absolute knowledge the North-side Land company took no action, attended no meetings, until especially requested to do so by a committee representing the residents.

"It is absurd for Mr. Brookes to say that the residents of that district are not more deeply interested in a railroad than any land company can be. Many hundreds of residents have invested their entire savings in their property and improvements on the strength of the franchise and contract given by the city to the street railway company. They had a right to expect that the street railway would reach their district and, Mr. Brookes to the contrary notwithstanding, their dollars WILL be cut in two.

"About the equipment of the road citizens of East Liverpool need be told nothing, especially those who are employed in the East End factories and those living in Wellsville, in either case it being necessary for them to use these street cars in going to and from their places of employment. 'The very best modern wheel brakes and track brakes are used on the Calcutta road.' I think it is questionable; in fact, I am sure there is not an electric brake used on the road, at least I have been so informed by those on the inside. Now, if Mr. Brookes doesn't know that these electric brakes are the most modern equipment for roads in a hilly country he should investigate a little more closely.

"Mr. Brookes also states that the ordinance under which the railway is to operate requires the use of girder rails on paved streets. This is true, but the paved street ends at the turn just above Jethro. From there out the street is unpaved, and I think the ordinance does not require the use of girder rails above that point.

"But what is the use of all this discussion as to the ethics of railroad building?

"The fact remains that the street railway company obtained its franchise and was enabled, as Mr. Healy informed me himself, to sell its bonds on the extension of time the franchise granted him. The council has ordered him to build the extension or vacate the franchise, and Mr. Brookes now intimates that they will defy council and refuse to comply with their orders under the franchise. I can imagine what council's reply will be. Again Mr. Brookes rushes into print and states that advantage was taken of him. He talks about snap judgment, etc. As to how much justice there is in this claim I leave to your readers. They know that Mr. Brookes went down to council two weeks prior to the Pleasant Heights residents' attorneys, and council very courteously listened to his side of the case. He certainly cannot deny this, and he gave the Pleasant Heights people no notice of his intention to appear; but now, because the attorneys for the other side pursue the same course, he says 'snap judgment' was taken on him.

"The people have been waiting for two years with a line guaranteed to them and still no street cars. Mr. Brookes asks council to consider all

the things the city and its inhabitants might lose by annulling the later franchise. I think Mr. Brookes primarily had in mind what the street railway would lose, and possibly it was this thought that engendered his remark."

Brief Notes of a Personal Nature and of Matters About Town.

A Daughter Born—Mr. and Mrs. Claude C. Smith, of Pennsylvania avenue, are rejoiced by the arrival of a little daughter at their home yesterday afternoon.

Probationers to Be Admitted—The probationers class of the First M. E. church next Sunday will be received into full membership. The class has been under instruction for the past six months.

Thanks Extended—At a regular meeting of General Lyon Post, No. 44, G. A. R., the adjutant was instructed to extend the thanks of the post to City Marshal Thompson for his able service in collecting funds to defray the expenses of Memorial Day, and also to citizens who contributed so liberally on that occasion.

A Young Wheelman Hurt—Wilbur Earl, a boy, rode his bicycle to the show grounds yesterday afternoon to see the animals. He also rode his wheel back home, but when riding along Fourth street the front wheel struck a stone, throwing Wilbur to the brick pavement. Wilbur now has a deep cut on his left arm just below the elbow.

A Big Purchase of Wool—Constable James Miller, who went to Mechanics-town, Pa., Saturday morning for the purpose of purchasing wool for a large eastern woolen mill company, returned home yesterday. While there he succeeded in contracting for not less than

15,000 pounds of wool, for which he paid from 16 to 50 cents a pound. The wool will be brought to this city and shipped east as soon as possible.

Rudely Awakened—While sitting on a stool in a local restaurant sleeping soundly due to an over-indulgence in corn juice, Charles Messer, of Chester, was rudely awakened by Officer Morris and taken by the aid of the patrol to more comfortable quarters in the city hall. BADLY BEATEN BY BOLD THUGS

Wm. Pfankuch, a Musician,
Pounded Until He Was
Black and Blue.

THE COWARDLY ASSAULT

Like That on Greer, Was Made
Absolutely Without
Provocation.

RECOGNIZED HIS ASSAILANTS

Following the story published exclusively in the News Review Saturday evening of the brutal and vicious assault made upon John Greer by unknown parties come another account of an equally brutal and perhaps more sensational occurrence. The particulars are a trifle more explicit, as there is alleged knowledge of the perpetrators of the cowardly deed.

Prof. William Pfankuch, the well known violinist who played for some time with Victor Herbert's orchestra in Pittsburgh, and who has been in the city for several months, following his profession, was the victim of the second assault. He stated when seen this morning by a News Review reporter that it occurred, on Sunday evening, June 8, at the corner of Union and Second streets.

"I had been in the drug store there on the corner making a purchase," said he, "and not having the least idea of ever being attacked, I walked out to the edge of the sidewalk and was standing there with my back to the store when some big man came up from behind, seized me by the shoulder, swung around, and then another man commenced pounding me.

"I broke away from them and started to run up the street, but had got only a short distance when they overtook me and continued the assault. They both kicked me about my legs until from my hips down I was black and blue. I offered resistance, but was unable to do little but keep them from striking my face. After pounding and kicking me until I could scarcely walk the ruffians left.

"I hobbled the best I could to my boarding house and later notified a policeman. He went in search of the brutes but I guess they had made good their escape. I know their names and I wish they could be made to suffer. I am afraid to go out on the street after dark and will be until they are brought to justice. It was done through devilishness alone. They did not try to rob me. I never harmed a person in my life and why they beat me I can not explain."

Through the evidence which Prof. Pfankuch proposes giving the police it is thought that they will be arrested, and the guilt of attacking Greer may also be attached to them. Both assaults occurred in the same locality and it seems quite likely that they were the work of the same gang.

Greer, it is said, is somewhat improved today and has a good chance for recovery, although suffering very much.

SPECIAL SONG SERVICE

Of Unusual Interest Held at the
First Presbyterian
Church.

At the First Presbyterian church last evening every seat was occupied when the special song service was opened with a beautiful anthem, sung by the church choir. Two solos and another anthem were the changes in the regular program. They were pleasingly rendered and listened to with the keenest interest.

Rev. C. G. Jordan, pastor of the church, preached on the "Power of Music," and his remarks were certainly well illustrated by the special music.

CLEVER SWINDLER CAUGHT

Clothes Pressing Agent Who Operated
in Cleveland And Other Cities
Arrested.

Columbus, June 16.—If private advice received in this city are correct, the United States authorities have succeeded in capturing James Nagle, supposed to be one of the promoters of the Gentlemen's Valet company, which has operated in Cleveland, Toledo, Pittsburgh and Columbus. Nagle was caught in Philadelphia and Postoffice Inspector Oldfield wired a friend here that he will be brought today to Co-

lumbus, where, it is said, a charge of using the mails with intent to defraud will be placed against him.

The company opened headquarters here several weeks ago. Agents were sent to prominent citizens, offering to cleanse an depress all the clothing they wished to send for the period of one year for \$12 in advance. Presently a handsome wagon bearing the company's name was brought to Columbus and driven every day through the principal streets. Later circulars were mailed to hundreds of leading citizens, calling attention to the establishment of a branch office here, and repeating the same old story of "only a few more at this exceptionally low price."

Several days ago the alarm was sounded and the headquarters was deserted, and the company disappeared, probably carrying \$5,000 of Columbus money with it. A decoy telegram, offering to purchase the company's business here and signed by the name of a man with whom a dicker was known to be in progress was forwarded to Nagle at Philadelphia. The plan was successful and Nagle's whereabouts was learned.

Operations Going Steadily Forward on
Beaver Creek—Men Won't
Talk.

The surveyors who have been working on the grades for an electric line from Pittsburg to Cleveland, exclusive mention of which was made in this paper some days ago, are now working their way up Beaver Creek, on their way to Lisbon.

The men in charge of the engineers are as reluctant to talk of the future of their work, and seem to be anxious to complete their part of their work at an early date.

The survey has progressed to a point about six miles north of Smith's Ferry.

Excitement And
Arrests.

H. P. Taylor, a new motorman on the Rock Springs line, and a mill employee named Williams were the participants in a one-round sparring match in front of Rock Springs park at o'clock Sunday afternoon. It caused much excitement.

Williams appeared slightly intoxicated and talked loud. Taylor asked him to desist as Sergeant Hiram Allison was coming up the street and might arrest him. Williams said he did not care who was coming, and gave Taylor a dig and wanted to fight with him.

Taylor was not looking for trouble, but being pushed he soon waded into Williams and struck but two blows, both landing hard, and knocking the mill man down and out. He was unconscious for some time. Taylor got water and washed off Williams and finally brought him to.

Williams at 7 p. m. came back to the restaurant followed by a large gang of mill workers and boys, who, finding Taylor, were about to mob him.

Meantime, Conductor Raugh, seeing that there was trouble brewing, skipped up to the car barn. An extra car was quickly loaded with men and arrived at the scene of trouble.

As soon as the gang caught sight of the street car men they at once dispersed and went in different directions.

Two of the mill men, Fred Curber and a man by the name of Warbuh, were arrested by Officer Hassey, of the park, and a street railway employee named Williams, who was deputized by Hassey, and both will be given a hearing before Squire Johnston tomorrow morning.

PRIZE BANNER GIVEN

To the Junior Endeavorers of the M.
P. Church—Children's
Day.

Children's day was fittingly observed in the Methodist Protestant church yesterday morning. The children of the Sunday school took part and in the rendition of recitations and music they were highly entertaining.

Judges were appointed to award the banner promised several months ago to the class that did the most towards raising money for the church. The Junior Endeavor Society got the banner.

A PLEA OF GUILTY

Entered By Lawrence Allison In
the Bribery Case—Baker
Enters Same Plea.

Lisbon, June 16.—(Special)—Lawrence Allison, late deputy sheriff, was arraigned in common pleas court this afternoon for his part in connection with Baker in the alleged solicitation of bribes from East Liverpool saloonkeepers. He appeared much embarrassed and pleaded guilty on two counts.

Allison was fined \$150 and costs on each count.

Baker also pleaded guilty on one count. He was fined \$100 and cost. The costs will not be heavy.

The blackmail indictments in the case of both were nollied. They pleaded guilty to the counts charging oppression. Allison states that he will return to East Liverpool. He expects

to get employment with the United Power company.

Sheriff Leonard has stated that he will try to get along without a new deputy, except that he may employ somebody to look after duties about the jail.

Allison was charged with trying to oppress certain saloonkeepers of East Liverpool by threatening if they did not give him \$25 to hand to the grand jury the names of witnesses who would testify against them as to the violation of the liquor laws. Several indictments were returned against Allison, but the misdemeanor to which he pleaded guilty was the least of the offences. O. C. Baker was under indictment also for blackmail. He pleaded guilty to the charge of obtaining money under false pretenses and was fined \$100.

RAILWAY WANTED BY THE CITIZENS

C. E. Macrum Denies That Land
Companies Alone Ask Pleas-
ant Heights Extension.

MR. BROOKES' STATEMENT

Are Criticised and Issue Taken—Land
Company Prepared to Give \$5,000—
That Fact Once An Inducement—
Promises Should Be Kept.

A representative of the News Review called upon Charles E. Macrum, who is secretary of the Northside Land Company, Saturday evening, and when asked as to whether he cared to be quoted regarding the Pleasant Heights street railway matter Mr. Macrum said:

"I am not adverse to telling you what I know about the Pleasant Heights street railway matter. I was very much amused upon reading the interview published Saturday evening with Attorney Jason H. Brookes. Mr. Brookes says that he and the street car company are perfectly willing to do everything to assist Messrs. Ashgaugh, Vodrey and myself, together with the land companies, to build a line from the Diamond to Pleasant Heights. Mr. Brookes has no doubt later information than that which the parties just referred to were able to obtain from Mr. Louis W. Healy, the manager of the East Liverpool Railway company.

"Mr. Healy, at the time of our visit, about ten days ago, said he did not care to build that line to Pleasant Heights, neither would he give us any satisfaction as to releasing to us the road from the Diamond out. Mr. Brookes further says that the \$5,000 which the Pleasant Heights Land company agreed to pay to Mr. Healy would be no inducement to the railway company. I think I am safe in saying that it was an inducement at the time the contract was made. Mr. Brookes says that it should be understood that the present proposition to pay the \$5,000 is not made by the Pleasant Heights Land company. Mr.

ALL THE NEGOTIATIONS ARE PROCEEDING QUIETLY

There was little if any news to be obtained today relative to the coming conference between committees representing the Western Manufacturing Potters' association and the National Brotherhood of Operative Potters over that which was given in this paper Saturday. All work that is being done on either side is being conducted quietly.

President Hughes, of the National Brotherhood, this morning said: "The committee that will represent the Brotherhood has not been appointed. I have practically nothing to say regarding the coming conference just at this time."

It has been learned that a committee composed of Messrs. H. A. McNicol, of the Dresden Pottery company, and Samuel Ferguson, of the East Liverpool Pottery company, left Saturday evening to visit the other manufacturing potters in the west. Their first stop is given as Cincinnati. They are expected to return home during the latter part of the week.

A committee composed of Will S. George, of the East Palestine Pottery company, and Joseph G. Lee, president of the Western Manufacturing Potters' association, left at noon today for the purpose of calling upon the manufacturers in the east and west of the Allegheny mountains. Their work will require several days.

When the work of the committees is completed another meeting of the association is expected, for the purpose of hearing their report. It is averred that the purpose of these committees is to present to other manufacturers the communication, or copies of that which was received from the Brotherhood.

WOODMEN HOLD SOLEMN SERVICE

Memorial Exercises Impressively
Carried Out at Spring
Grove Cemetery.

MOST BEAUTIFUL CUSTOM

And Its Purpose Explained By the
Consul of the Order, W. S. Culp—
Rev. W. H. Gladden Delivers a
Most Appropriate Address.

To pay kind tribute and give a token of loving remembrance to their honored dead the local lodge of the Modern Woodmen of America marched through the sweltering sun to Spring Grove cemetery yesterday afternoon and in a beautifully solemn manner carried out their annual memorial services.

At the lodge room on Fourth street about 40 members formed into line and started on the long march, headed by a band, which played music most excellent. It was made up of Manley's and Haines' bands, the best talent of each being selected.

Upon arriving at the cemetery the program, as announced, was impressively rendered. Rev. W. H. Gladden, pastor of the Methodist Protestant church, opened the services with a feeling prayer, referring tenderly to the dead brother of the lodge. An address by the venerable consul, W. S. Culp, followed. He is a pleasing speaker and his few remarks were very appropriate and well received. In part he said:

"The custom we observe today, the purpose unto which this day is dedicated, is not bounded by lines of latitude or longitude, owes no allegiance to transient political ascendancy, acknowledges no fealty to any particular flag, but is as broad as the earth, as cosmopolitan as the sons of men and more ancient than recorded history."

"Let us then approach this beautiful and appropriate ceremony, not only reverently, but in the spirit of the broadest catholicity, which questions not the political or religious creed of the dead, exacts no requirements of the living, but recognizes alone the uni-

versal, God-given brotherhood of man, whose only tenet is the Golden Rule. He whose mortal form lies here was our neighbor, whose virtues we are pledged to emulate, but whose imperfections have been blotted from the records of our memories by the hand of death. He has found the great Arcana and has entered into peace, light and safety before us."

The Woodman's honors were then given, flowers strewn on the grave of the late Chas. C. Morgan and the services were brought to a close with an extemporaneous address by Rev. Mr. Gladden. "We have come here to observe a beautiful custom," he said. "How grand it is for us to remember our honored dead in such a manner. By this ceremony we show that the deeds of man live long after his removal from our presence. An awful thing it would be were we to forget our beloved brethren. By assembling here we are reminded of the uncertainty of life. We are surely like the flower and the grass of the field. I pray that God's blessing will be upon you and that you may all reap the harvest of a true and honored life."

TAXES ARE LESS THAN LAST YEAR

STATE AND COUNTY LEVY
AMOUNTS TO 6.35 MILLS.

The Reduction Is 1.65 Mills, Chiefly
on Taxes Imposed By
the State.

Lisbon, June 16.—(Special)—The total state and county tax levy on real and personal property for 1903 is 6.35 mills. This is 1.65 mills less than last year. The reduction is made up of a 1.54 mills reduction in the state tax and an .11 mills reduction in the tax for the county.

The rate sheet for the local district is not yet made out, but if the tax in any township or corporation is as great or greater this year than last, it will be because the local levy is higher.

THE TRAGEDY COMPLETE

Charles Gigante and Two Other Vic-
tims of the Workhouse
Riot Dead.

Canton, June 16.—Homer E. Stone, a guard at the Stark county workhouse, died yesterday afternoon of wounds received at the hands of Chas. Gigante, a prisoner who tried to escape May 21.

Stone makes the third victim of the attempt of Gigante to gain his freedom. George W. Jacob, a foreman in the brush shop, was killed by Gigante at that time. Gigante himself received wounds from a gun fired by Guard Stone, which caused his death two weeks after the assault, and Stone in turn, fell a final victim to pistol wounds made by Gigante.

SPECIAL GRAND JURY

Likely to Be Called to Dispose of
Present Jail
Cases.

Lisbon, June 16.—(Special)—A special grand jury will probably convene on Monday, June 30. It is thought it will be cheaper to have a special jury now act on the four prisoners in jail than to keep them for the regular jury in September.

The cases to come before the jury are Albert Rutter, of Salem, charged with fornication; Mrs. Alice Rutter, charged with infanticide, and Frank Haskins and Oliver Huffman, both colored, and charged with burglary.

TO ELECT TEACHERS

And Receive Bradshaw School Bids—
Important Business For
the Board.

At the regular meeting of the board of education this evening the teachers for next year will be selected and the bids for the new Bradshaw addition building will be opened.

Three bids have been received up to the present time, but it is thought that one more will be handed in before the meeting is held. Those on hand at present are from Claude Nease, J. C. McClain and Harvey McHenry, all local contractors.

PRIMARY IN STARK

Delegates to the Coming Congress-
sional Convention Will Be
Chosen July 12.

Canton, June 16.—The Republican central committee reorganized Saturday and re-elected A. W. Alger county chairman. The committee also arranged for a primary election to select delegates to nominate a successor Congressman R. W. Taylor. The primary will be held July 12.

DAMAGE CLAIM FOR LARGE SUM

Miss Itha McHenry's Suit
Against East Liverpool
Now on Trial.

WAS INJURED BY A FALL

On Kossuth Street, and Claims Her
Hurts Will Be Per-
manent.

TESTIMONY FOR PLAINTIFF

Lisbon, June 14.—(Special)—The \$10,000 damage case of Itha McHenry vs. the city of East Liverpool came up for trial this morning and is attracting great attention.

Miss McHenry claims that on the night of Oct. 4, 1901, while passing along the sidewalk on Kossuth street, when she fell over a pile of stone and injured her knee so badly that it will always be stiff.

She was confined in bed and since has not been able to perform her duties as bookkeeper, for which she was paid \$12.50 per week. At the time of the accident her salary was about to be raised to \$75 per month. She claims that she was compelled to pay \$250 for medical services.

Geo. C. Thompson, of the C. C. Thompson Pottery company, was the first witness called for the plaintiff. He said that he traveled over Kossuth street about twice a day and was well acquainted with the scene of the accident. The nearest electric light was 225 feet distant and the light is obstructed by shade trees, making the sidewalk very dark. There was no danger signal, making it dangerous for any one not acquainted with the condition of the sidewalk to pass the place at night. On Aug. 1, 1901, the pavement was covered with a pile of stone and sand about two feet high in front of Mr. Ward's residence, then being erected. About the middle of September witness stepped on a stone at this place, and fell into a sand pile, but was not hurt. Here the court adjourned for noon.

BADLY HURT

REPAIRMAN KNOCKED FROM A
CAR IN CHESTER.

His Injuries Are Serious and Perhaps
Fatal—Cause of the Ac-
cident.

M. B. Shaffer, a lineman employed by the Rock Springs street railway, got a terrible fall Sunday evening. He was standing on top of a street car, repairing a trolley wire on Virginia avenue, when the wire slipped from his grasp and knocked off the car.

His back struck either the end of a tie or a rail on the other track injuring him internally.

Dr. C. E. Lewis was called and ordered that he be taken to his home and put to bed. His condition is somewhat worse today and it is thought that if he does not soon get better he will not recover at all.

They want to gather all good old clothing possible and convert it into garments for the use of the needy poor. Ladies of all churches are invited to attend and to sew. Donations will be thankfully received.

EAST END

PROPOSE TO BUILD A COLLEGE HERE

East End Residents Would Be Glad
to Convert Neville Insti-
tute Into One.

THE IDEA IS COMMENDED

And It Is Likely An Effort Will Be
Made to Increase the Institute Fund
For the Purpose—A Nucleus of
\$10,000 to Start With.

There has been some talk between East End residents and Superintendent R. E. Rayman, of the public schools, relative to the establishing of a college in the East End, on the site now occupied by the Neville Institute. While in no definite shape, yet there is much hope of the ultimate success of the idea.

One of the most interested parties in the affair is Dr. William Calhoun, of Virginia avenue, one of the trustees of Neville Institute. He said: "It will be remembered that the ground occupied by this school was given for educational purposes by Mr. Beaver, who many years ago, before his death, owned not less than 1,000 acres of land in the vicinity of the school. Among the prominent farms that was owned by Mr. Beaver was that now known as the Smith farm, and out of his entire holdings Mr. Beaver set aside property for higher educational purposes, until now this fund reaches almost \$10,000, much of which is out on interest."

"I have had some talk with Superintendent Rayman regarding the erection of a college building on this ground, and he seems to think that the idea is a good one, and should be advanced. It will require much more than \$10,000 to erect a college building, and if we can advance our plans further, and we have every reason to believe that our efforts will be successful, we will soon commence to start a fund with which to erect the buildings. I only hope for the success of the scheme."

There are many residents of the East End and many in the city proper who would be pleased to see a higher educational institution built and it is known that they will lend their good offices to advance such an idea, as an exceptionally good one. There is now no college near in this section of the state, and as Ohio is noted for its educational institutions it is thought this city should be represented.

MORE FIGHTING

Quarrelsome People Whose Conduct
Calls for Investigation By
the Police.

There have been several fights in the East End since Saturday evening, but so far no arrests have been made. Saturday evening, at a late hour, a man and a woman had a war of words on First avenue, which caused a number of people residing in that immediate vicinity to awake from their slumbers. They talked so loud that they could be heard for several blocks. Officer Fisher is now making an investigation.

Several men last night indulged in a fight in the old McKinnon cemetery. Finally Officer Fisher was notified, but by the time he reached the battle ground the principals had left. The trouble will likely be aired in police court before long.

The P. H. C. Reception.

All arrangements for the reception to the East End lodges by the Protected Home Circle, of the East End, have been completed and the attendance at the event, which will be held on Friday evening, gives promise of being very large. Members of the circles from East Liverpool, Chester, Wellsville and Salineville will be present, and at a late hour refreshments will be served. It is thought that several hundred persons will be present.

DON'T READ IN BED.

It Is a Dangerous Practice While Lying Down, Says an Authority.

Reading in bed is seriously advised, so the newspapers say, by a physician as conducive to "repair and resting," "relieving congestion," "emptying the veins overfilled by prolonged eyework," etc.

It is plain that placing the head back in a horizontal position so absolutely meets the whole problem of a relief of congestion by gravity—and it is such a very important problem—that it seems strange that people with weak eyes do not habitually practice reading in a recumbent position perfectly comfortable. Such advice, carried out with absolute care as to light and the position of the book, would in the case of a thousand busy people add largely to the number of hours which reading could be indulged in without detriment to the eyes or general health.

Certainly the one who gives this strange and pernicious advice could never have tried the plan. Some years ago there was described a patented device for suspending the book over the horizontally placed head of a sick person whereby reading would be possible without holding the book in the hands.

Even then one wonders how the light could be made to fall properly on the page. Without a method of the kind not even a well person could hold a book five minutes above the eyes.

Reading in bed has ruined thousands of good eyes. Unless one sits up in bed as if in a chair it is impossible to hold the book in such a position that the arms are not quickly tired and so that the light falls on it properly. When reading lying down, there is a traction upon the inferior recti muscles which is highly injurious. Every patient should be warned never to read in bed except when sitting up as vertically as in a chair.—American Medicine.

STRONG PULSE BEATS.

Cases in Which They Are Perceptible to the Eye.

"It is not such an uncommon thing," said a physician, "to find a person whose pulse beats can be plainly seen, and yet I suppose there are but few outside of the profession who realize the fact. In most persons the beat of the pulse cannot be perceived, but the mere fact that the beating is perceptible does not mean that the pulse is other than normal. I have come across a number of cases where the throbbing of the wrist could be plainly seen, and yet the persons rarely gave evidence of abnormality in temperature. They were rarely feverish and were in good physical condition generally. Pulses of this kind, from this view, which is based upon actual observations of cases, do not indicate anything more than an abnormal physical condition in the formation of the wrist veins."

"I have met with one case which was possibly a little extraordinary in that it was plainer and much more distinct than any I had ever seen before. It could almost be heard. The artery would rise to a point almost as large as the ball of the little finger of a child and would change from the white of the skin to a blood purple with each beat of the pulse. I found it easy to count the pulse beats without touching the patient's wrist. I could see plainly enough to keep the record, and in order not to err in my calculation I tested it in several ways and found it was correct and that there was no mistake in my counting with the naked eye."—New Orleans Times-Democrat.

Origin of the Rattlesnake Flag.

One of the most common devices used on the American flags during the early part of the Revolutionary struggle was an embroidered rattlesnake above or below the legend "Don't tread on me!"

The origin of this design has been traced to a remark made by Ben Franklin. At the time the flag was adopted, or immediately before, England was shipping her criminals to America and turning them loose on the defenseless colonists. After several murders had been committed by these unwelcome immigrants Ben Franklin (some say in a joking spirit) suggested that the colonists retaliate by sending a cargo of rattlesnakes to the mother country and turning them out in the gardens of the nobles.

COULD ADJOURN SOON

Senators Agreed It Would Be Possible, But For the Cuban Bill.

WELL UP IN LEGISLATION.

Only One Appropriation Bill Remains to Be Acted Upon in the Last Stage—Forecast For the Week in House and Senate.

Washington, June 16.—The senate will meet at 11 o'clock each day during the present week up to and including Thursday, in order to permit ample opportunity for discussion of the isthmian canal bill prior to voting on the bill and amendments on Thursday.

The four days preceding the vote will be crowded with speeches on the bill, the announcements made of intended remarks being unusually numerous. Senator Kittredge will speak today in support of the Nicaragua route, and will be followed on Tuesday by Senator Hanna. During the week Senators Foster, of Louisiana, and Pettus will make addresses in favor of the Nicaragua route, and on Thursday Senator Morgan will close the debate in the interest of Nicaragua. The supporters of the Panama route express great confidence in the success of the Spooner bill.

Other Bills Which May Come Up.

Other measures which may be considered during the week, if opportunity permits, are the London dock charge bill and the pure food bill. There will be a strong effort made to have the Cuban reciprocity bill in readiness to be made the unfinished business when the canal bill shall have been disposed of. It is expected that the Cuban committee will be prepared to report Wednesday or Thursday.

There is general agreement that but for the Cuban bill the final adjournment of the session could be secured at an early day. Only the general deficiency bill of the entire list of appropriation bills remains to be acted on in the first stage. With the passage of the District of Columbia bill by the senate Saturday that body disposed of the last of the supply bills on the calendar, and as the house has the deficiency bill before it there is comparatively little to do in the way of getting the appropriation bills through. The naval bill, the army bill, the District of Columbia bill and the sundry civil bill are still in conference, but no one believes an agreement on them would be difficult if adjournment could be expedited thereby.

Probable Work in the House.

Washington, June 16.—Today is suspension day in the house and the speaker has agreed to recognize a number of members to move the passage of bills under suspension. Whatever time remains today, together with tomorrow, has been set aside for consideration of the bill to amend the bankruptcy act. Wednesday the general deficiency appropriation bill will be taken up and on Thursday consideration of the Philippine civil government bill will begin. Under the rule agreed on for consideration of the latter bill there will be a day session, beginning at 11 a. m., and a night session, beginning at 8 o'clock, for general debate until Tuesday, when the bill will be opened to the five-minute rule. The final vote will be taken on Wednesday.

Bill to Make Cuba a State.

Washington, June 16.—Senator Elkins, leader of the beet sugar insurgents, introduced in the senate Saturday morning a resolution providing for the annexation of Cuba and its admission as a state, on condition that the constitution of such state be transmitted to congress for its approval not later than Jan. 1, 1904. The resolution provides that Cuba cede to the United States everything but its revenues, dues, debts and vacant and unappropriated lands. The resolution appropriates \$100,000 for the purpose.

New West Virginia Bank.

Washington, June 16.—The comptroller has authorized the First National bank of Philadelphia, W. Va., to commence business; capital, \$50,000; J. N. B. Crim, president; J. F. Maun, cashier. The comptroller has extended the corporate existence of the First National bank of Johnstown, Pa., until June 15, 1922. Alpheus C. Meyers has been reinstated as stamper and gauger in the Pittsburgh internal revenue office.

Bill Aimed at Trusts.

Washington, June 16.—Representative

Richardson, of Tennessee, Saturday introduced a bill to place all articles and commodities manufactured and controlled or produced in the United States by a trust or trusts on the free list and to reduce the rate of duty on any article or commodity manufactured in the United States and sold in a foreign country more cheaply than in the United States.

Clark to Be Made Rear Admiral.

Washington, June 16.—Senator Proctor Saturday introduced a bill authorizing the president to appoint Captain Charles E. Clark, late of the battleship Oregon, a rear admiral.

MINE WATCHMAN WAS SHOT.

Assailant's of a Company Man at Olyphant, Pa., Are Unknown—Gilday Saw Mitchell.

Scranton, Pa., June 16.—About 1 o'clock Sunday morning a watchman at the Delaware and Hudson company's No. 2 colliery, in Olyphant, found a fellow watchman, Charles Robinson, lying under a freight car unconscious and with a bullet hole in his right breast. The company officials have offered a reward of \$1,000 for information that will lead to the detection of the person who fired the shot.

Earlier in the night a Hungarian was fired upon by two coal and iron policemen at this colliery. The Hungarian was cutting firewood on the company's property. It is thought that possibly he was hit, and that his friends returned and ambushed Robinson. The two policemen were arrested.

Wilkesbarre, Pa., June 16.—Patrick Gilday, president of the Central Pennsylvania bituminous district of the United Mine Workers of America, who came here to consult President Mitchell on a matter local to this district, in a talk with a correspondent of the Associated Press yesterday, said in part that there are 42,000 soft coal miners in his district and every one of them is taking a deep interest in the struggle now going on in this region. On the second day of the strike Mr. Gilday sent out the instructions to every checkweighman and pit committeeman at the mines in his district to prevent the shipment of soft coal into anthracite territory, and thus far, he said, very little coal from his district had taken the place of anthracite. None was being shipped except the nominal supply.

When asked regarding the feeling in his territory as to a general strike to help the hard coal miners, Mr. Gilday said:

"Our men will do whatever President Mitchell says. They can have our financial support, and if Mr. Mitchell sees fit to ask our men to lay down their picks they will do it promptly. I do not believe, however, there will be a general strike of the soft coal miners, because the anthracite men are going to win without it."

President Gilday's mission here was to get President Mitchell's consent to continue the strike against the Sonoma Shaft Coal company, near Portage, Pa., and also the financial support of the national organization. The strike at that place was inaugurated on April 16, because the company would not recognize the union and sign the wage scale. About 150 men were involved.

The strike at the Bloomington mines, near Philipsburg, Pa., has been settled and the men will return to work today. Five hundred men struck there last Tuesday because four men would not join the union. The four men have quit work.

STRIKERS AFTER RAILROADERS

Were Trying to Get Them Not to Handle Coal Mined in Clarksburg, W. Va., Region.

Clarksburg, W. Va., June 16.—An effort was being made to induce the railroad men to refuse to handle coal mined in this district. Success in this would mean a complete suspension of mining. There was some little uneasiness among operators. Organizers will leave this field today for the West Virginia Central to induce a strike among the miners of the Davis-Elkins syndicate. Mother Jones and others addressed 300 persons yesterday at Willow Tree school house, near Monongah. The crowd was largely composed of women, children and farmers.

Fairmont, W. Va., June 16.—Reports from throughout the coal region were to the effect that Sunday had been an uneventful day. All the plants in this district were expected to resume today. A verdict in the case of the strikers' leaders was expected today. All the organizers were arrested gave a bond and spent Sunday at various points throughout the region. They stated that the campaign will be prolonged for an indefinite period.

TWO MURDERERS ESCAPED.

Cell Doors Were Faulty in the Jail, at Stroudsburg, Pa.

Stroudsburg, Pa., June 16.—Charles Grether and Benjamin Aiello, convicted murderers, escaped from the Monroe county jail here yesterday morning. A posse was in pursuit. It was believed the men separated, as Grether had been traced as far as the woods at North Water Gap.

The cell doors, it was said, were faulty, and while the watchman was in another part of the building the men walked out of their cells and, unbolting the outside iron door, passed out of the building. Sheriff Mervine sent telegraphic notification of the men's escape to the authorities of all nearby cities and towns.

Wintering in Colorado And Utah.

The climate of Colorado and Utah has long been world famous, but it is only within recent years that attention has been given to the delightful winter climate of these states. Today physicians all over the United States send their patients to Colorado and Utah to escape the rigors of eastern winters and to benefit by her invigorating atmosphere and health-giving sunshine.

It is not necessary to add an elaborate argument—the conclusion is self-evident and inevitable. The winter climate of Colorado and Utah on the whole presents advantages for the invalid and the pleasure-seeker that cannot fail to command attention.

An erroneous impression prevails that because the Rocky mountains have a high elevation the mercury in the thermometer drops down below zero in the winter season and stops there, and that the snow mounts up with the altitude. The fact is that the average precipitation of moisture in the lowlands of the mountain region during the entire year is only 14.15 inches. With such average precipitation there is practically no danger of snow blockades on the railroads, save at a few points exposed to drifts and these points have been amply protected. This is especially true of the lines of the Denver & Rio Grande and the Rio Grande Western between Denver and Ogden at all seasons of the year. Facts speak for themselves, and the fact is that travel over "The Scenic Line of the World" has gone on with less interruption from snow blockades during the last ten winters than it has upon the majority of railroads in other localities which are popularly supposed to be more free from such delays than the mountain systems. What They Were Hawking.

At an exhibition of paintings in London in one of the galleries hung the notable picture "Hawking in the Olden Times." An elderly farmer and his wife paused before this picture, viewing it with evident satisfaction.

"John," said the old lady, "what's that?"

John then turned over the leaves of the catalogue he carried.

"They call it 'Hawking in the Olden Times,'" said he.

"Hawking! Why, what are they hawking?" she inquired.

"I dunno," he replied, "but I spects they're trying to sell them birds."

DESPICABLE JOURNALISM.

It is a vile bird that fouls its own
nest. It is a desperate and despicable
sort of journalism that leads a news-
paper, on the hunt for sensations, to
publish matter that would not only
injuriously affect its own fortunes, if it
had any reputation to maintain, but
must inevitably work against the inter-
ests of every citizen of the community
where it circulates. These remarks
are called forth by the publication in
the Crisis of Saturday of an article,
padded to great length with extrane-
ous matter, concerning the manufac-
turing potter's meeting of Friday
night and stating, in circus poster
type, that the propositions presented
by the National Brotherhood of Opera-
tive Potters had been "Turned Down."
The natural tendency of such a report
is to be injurious alike to manufactur-
ers and employees, and the article has
aroused the indignation of citizens of
all classes.

The News Review knew just as
much as the Crisis of the proceedings
of the manufacturers' meeting, and it
had the facts in time to publish them
had it so desired. But the News Re-
view is not a promoter of strikes or
strife, but has some regard for the wel-
fare of the city and of workmen's
and manufacturers' interests. The
statement that the operatives' terms
were rejected is altogether misleading.
The very fact that the manufacturers
decided to appoint a conference
committee to meet with a committee
of the N. B. of O. P. affords all the evi-
dence necessary that they are not dis-
posed to reject the numerous proposi-
tions, if they reject them at all, with-
out first giving the men a hearing. In
the past these conferences have result-
ed in mutually satisfactory agree-
ments. There is no warrant for pre-
dicting that the coming conference
will not have an equally happy out-
come. When the conference has been
held and a decision reached, the News
Review will give the public the news.
Until that time, regarding speculation
as idle, it will publish only legitimate
news and no predictions concerning
the matter. Effort to draw it into a
controversy on the subject will be fu-
tile.

Once a year the Crisis puts forth
strenuous efforts to cripple the indus-
try on which the prosperity of East
Liverpool chiefly depends. It provoked
the last great strike, according to the
testimony of men now prominent in
the Brotherhood, and it has talked
strike every year since that time, just

before the annual wage scale was to
be settled. A nice way, truly, to pro-
mote harmony and agreement between
manufacturing and operative potters
and to encourage the business of the
city! A paper that has more changes
of administration in its own office in
a year than a South American republic
has in a decade is certainly not in
a position to be influential as a coun-
selor of peace, but it might at least
have the grace to shut its yawping
mouth when it can do no good and
is likely to cause incalculable harm
by talking.

The potters' wage scale is a matter
to be settled by the parties interested
and not aired in the newspapers. No
one in East Liverpool can question
the fact that the News Review regular-
ly collects and publishes more reliable
news concerning the potteries than
any other paper that circulates here
or elsewhere. But there is one sort of
"news" that it will not publish, and
that is gossip and rumors calculated
to breed friction and strife. Its col-
umns, unlike those of its contempora-
ry, are never open to statements calcu-
lated to deal a blow to the general
welfare of the city.

Already there is a discussion in the
newspapers as to the suppression of
Fourth of July noise. The manifest
disposition in East Liverpool appears
to be to let the small boy do all the
noisemaking. But it would be a
mighty wise thing to take precautions
to keep dynamite crackers and toy
pistols out of his hands.

Elkins' Cuban annexation resolution
is premature. Time enough for con-
gress to decide that question when
Cuba asks to come in. And it will be
something of a surprise if she waits
long before asking.

OBITUARY

William G. Foster.

William G. Foster, Sr., of the firm
of Stevenson & Foster, printers, and
for years one of the substantial men
of Pittsburgh, died Friday night at At-
lantic City, N. J. He went to Atlantic
City about two weeks ago hoping to
benefit his health. Mr. Foster was 65
years of age. He was born in Clarion
county, Pa., and had been engaged in
the printing business all his life. He
went to Pittsburgh about 1871 and en-
gaged in business immediately with
William Stevenson. Previous to that
he had been in the newspaper business
in Wellsburg, where he established the
Union. His partner, William Steven-
son, died about a year ago.

Mr. Foster is survived by his wife,
two sons, Charles F. and William G.
Jr., and a daughter, Miss Katherine
Foster. He was a member of Ascalon
Commandery, Knights Templar, vice
president of the United States Na-
tional bank, a director of the Free Dis-

"Dogwood Winter."

A man from North Carolina who was
visiting in Philadelphia in the course
of conversation used the expression
"dogwood winter."

"What do you mean by dogwood
winter?" asked his host.

"Don't you really know what dog-
wood winter is?" demanded the man
from Hickory, N. C. "There is always
a spell of it in May when the dogwood
tree is in bloom. For several days
there is cold, disagreeable, cloudy
weather and often a touch of frost.
Down our way it never fails, and we
call it dogwood winter. I thought the
phrase was general."

The Colors in Battle.

Some people may not know that the
colors are not now taken into action.
Before a corps proceeds on service they
are placed in safe custody, as suits
such honorable insignia, and "when
Johnny comes marching home again"
they will be all the fresher for not be-
ing carried through dusty lands and
trying rivers. The men whose duty
it would have been to carry them and
stand by them to the last are now-
days employed in less sentimental, if
more useful, duties.

One Attraction Missing.

"Say," said the young writer who
had been engaged by the circus man to
write up a prospectus of the show,
"I've about exhausted my vocabulary
on this thing. Have you a thesaurus?"
"No, by thunder!" said the circus
man. "We've only got a rhinoceros,
but I'll cable over and buy one."—New
York Times.

WHAT IS GOING ON IN THE POTTERIES

In the past few years, when there
were not near so many potteries in
the west as today, the idea gained
ground that any man who would build
and run a pottery was on the sure road
to a quick fortune. A few cents'
worth of clay juggled into handsome
pottery products at a nominal ex-
pense would find a ready market and
be worth dollars. And so new potter-
ies have been multiplying steadily.
Now the majority of the potters are
beginning to think that productive ca-
pacity in the great staple lines of
earthenware is surpassing present
consumptive demand, and that the
slowness this spring is due in part to
insufficient trade to go fully around.
Schemes for the building of new pot-
teries are thick, and if all materialize,
conditions will be worse than today.

Several weeks ago the exclusive an-
nouncement was made in this column
that the coal strike in eastern Penn-
sylvania would no doubt have a se-
rious effect upon the Trenton potter-
ies. Two Trenton potteries have been
compelled to shut down for a time at
least on account of the scarcity of coal.
The International pottery has suspend-
ed work temporarily, while at the
John Moses Glasgow pottery the kiln-
men have been compelled to quit
work. The condition that now exists
in these potteries has assumed a se-
rious aspect. One Trenton man has
cornered about 75 cars of coal and is
selling it at \$7 a ton. Manufacturers
refuse to buy from him, and are try-
ing to get a supply of fuel from other
sources.

The conference committee of the
National Brotherhood of Operative
Potters were to meet a committee
from the sanitary manufacturers today
to revise the present sanitary list at
Trenton. Since Wednesday the commit-
tee has been busy collecting statistics
from the various plants and has all the
necessary material for the formation
of a new list. The meeting is expected
to be a harmonious one, and if it suc-
ceeds in forming a uniform price list
it will remove the causes for many
petty differences which have arisen
during the past year.

The Southern Sewer Pipe company
is a new concern that has commenced
the erection of a large plant at Bir-
mingham, Ala. The plant will have a
capacity of 26 kilns and the contract
for the erection has been let to
Charles A. Bray, of Toronto, who left
Saturday evening in company with
William Cadman and John Brown, of
New Cumberland, for Birmingham to
build the kilns. Over 5,000,000 brick
will be used in the construction of the
kilns.

From the manufacture of his class
art ware to the production of a line of
general ware, has been announced as
being the future policy of the Vance
Faience Pottery company, of Tilton-
ville. Moulds are now being made for
the new dinner and toilet sets that will
be placed on the market by this firm.

Adolph Miller, formerly of this city,
but now located at Akron, may estab-
lish a novelty works in this city. He
has been experimenting with clays
found in this section, and is of the
opinion that some excellent ware can
be made from such a body.

Local No. 48, warehousemen, will
hold their regular meeting this even-
ing in the Knights of Columbus hall.
This will be the first meeting of this
local since last Friday a week. The
new officers will be elected at the ses-
sion this evening.

During the past few days the follow-
ing salesmen have returned to the
city: Col. J. W. Aymar and W. F.
Wetherell, of the East Liverpool Pot-
teries company; Cecil Taylor, George
C. Pugh and A. J. Knorr, of the Taylor
plant, at Chester.

The Wilsonville Pottery company is
a new concern which is to locate at
Trenton. The building that will be
used for this purpose has for years
been occupied as a sagger manufactur-
ery. B. F. Walton is the president.

The Trenton art school announces
that a course in china painting will
be given at the opening of the next
school season. The study of ceramics
will also be an addition to the course
in this school.

Commencing July 1 the Bell pottery
at Findlay will close for about two
months. Work, however, is to be rush-
ed in the erection of the plant this
company proposes to operate at Col-
umbus.

Kildrawers' local No. 17, at a meet-
ing in Brotherhood hall Saturday eve-
ning, obligated one new member and

acted upon several applications. The
first nominations for officers for the
new term were made at this session.
The election will be held next Satur-
day evening.

Now that the warehousemen have
decided to meet on Monday evenings,
no less than five locals meet on that
evening, while only three meet on Fri-
day evenings.

Samuel Mayer, who has been em-
ployed at the D. E. McNicol plant for
several years as a glost kilnman, will
soon be located at the Laughlin No. 2.

George Smith and Alexander Os-
bourne, who have been working on the
glost end at Brunt's, have been help-
ing out at the Union for a few days.

The manufacturing potters and the
operatives at Trenton have given \$500
toward the erection of a monument to
the memory of J. Hart Brewer.

"Narcissus" is the name of the new
dinner set now being made by the East
Liverpool Potteries company at the
Wallace & Chetwynd factory.

The meeting of juggers' local No.
12, which will be held in Brotherhood
hall tomorrow evening, will be quite
an important session.

John Wood, Sr., claymaker at the
Diamond, who has been at New Castle
visiting his sons for a few days, has
returned to the city.

In the new sanitary shop that is be-
ing built at Trenton by B. F. Walton
& Co., 25 pressers will be employed.

George Cox, formerly an oddman at

THE FAMOUS SHOWS

GENTRY BROTHERS' TRAINED
ANIMALS ARE IN TOWN.

A Fine Street Parade By the Miniature
Circus—Its Reputation
Great.

Gentry Bros.' famous shows arrived
in the city early Sunday morning and
immediately preceded to unload at
West End park, where performances
were given this afternoon and will al-
so be given this evening.

The parade made this morning at 10
o'clock was witnessed by hundreds and
was enjoyed hugely, especially by the
children. Two bands and a callopie
furnished excellent music, while the
dogs, monkeys, horses, elephants, po-
nies and the representation of a modern
fire company were indeed very im-
posing. Everything was clean and
bright as a new dollar.

All who had the pleasure of witness-
ing the parade say that it was far
ahead of the usual run and that it ex-
celled any that has been seen in the
city for years. It was over three
blocks in length and every feature was
beyond the expectation of all. The dogs
are the best educated of any in the
country and with the ponies have a na-
tional reputation. To children they
are very interesting and help them
wonderfully in the comprehension of
what the lower animals can accom-
plish. And there are scores of older
people who have seen Gentry's shows
who say they are far more interesting
and attractive in every feature than
the big circuses.

There is every indication of big
crowds to witness the performances,
and there can be no doubt of satisfac-
tion and enjoyment for all who at-
tend.

"What Shall We Eat."

Every day the same old question,
What shall we eat for breakfast, for
luncheon, for dinner? assails with mo-
notonous regularity the patient house-
wife who seeks to provide good living
for the family in agreeable variety at
a moderate cost. There is a daily de-
partment in the Chicago Record-Her-
ald, which is intended to answer this
question satisfactorily every day in
the year. It is entitled "Meals for a
Day," and provides menus for the
three meals every day, with the neces-
sary recipes. These menus and recip-
es are carefully selected by the Re-
cord-Herald's household editor, and
cash prizes are awarded to the best
that are received. Housewives every-
where are invited to participate in the
competition. For full particulars see
the "Meals for a Day" department in
the Chicago Record-Herald.

DAIRY NOTES.

Good butter should be solid from the
time it is put upon the table.

Any excitement in the dairy cow
tends to lessen the flow of milk.

Failing to get all the buttermilk out
causes butter to become rancid soon.

To obtain the best results in churning
the cream should be only slightly sour.

In winter the cream should be warm-
ed up to about 66 degrees before put-
ting in the churn.

One advantage in brine salting is
that it almost entirely avoids streaked
or mottled butter.

The milk should always be skimmed
while sweet and the cream then allow-
ed to turn slightly sour.

Sometimes butter has white specks
distributed through it. This is caused
by oversourness in the cream.

In butter making next to controlling
the temperature is to churn often while
the cream is in good condition.

With temperature under control and
churning done at the right time the
butter will become solid and be easily
handled.

On the farm to make the most out of
the milk and butter some of the cows
should be bred to come fresh in the
spring and some in the fall.—St. Louis
Republic.

WELLSVILLE

FIFTEEN ARRESTS

RECORD BREAKING POLICE BUSINESS IN WELLSVILLE.

Two Alleged Disorderly Resorts Raided and Numerous Persons Jailed.

The police force of this city under the able management of Chief Thorn made a record for Saturday night arrests last Saturday evening. They succeeded in bringing in no less than nine women and six men. The mayor also performed his duty and got rid of nearly all of them in less than 24 hours' time. The fines imposed amounted to over \$200.

Chief Thorn, when asked regarding the matter, said that as far as he could remember, the number of arrests last Saturday night far surpassed that of any night during his service.

The alleged disorderly resort on Second street kept by Julie Dennis was raided and a number of girls taken to the mayor's office. A house on Coal street that was run until recently by a woman called "Peg," but now in charge of a Pittsburg woman, was raided and a half dozen young women taken to see the mayor. At each place several men escaped precipitately when the officers appeared.

Three men were arrested by Houser and Davis for fighting in Sam Brubaker's saloon on Third street Saturday evening. They were John Holliday, F. L. Smith and a man by the name of Barr.

Brady Dorff was arrested on Main street by Houser and Davis. Dorff was insensibly drunk and had to be carried to the station.

Two men, who gave their names as McCoach and McMullen, were arrested by Officers Thorn and Davis for drunk and disorderly conduct. They belong in East Liverpool.

Fred Lodge was arrested early Sunday morning for prowling in an alley by Officers Houser and Elliott.

Thomas Haney was arrested at his home, Fifteenth and Main street, by Officers Henthorne and Davis. Haney is a roofer and works in Chester, but went home with a jag Saturday evening and proceeded to thrash his wife. She was so cruelly beaten that Dr. Hutchison was summoned to dress her injuries. Her cries aroused the neighbors and the police arrested Haney, who struck Henthorne with a heavy pitcher.

Children's Day Services.

Very interesting Children's day services were held at the Evangelical church last evening. The church was finely decorated. An appropriate address was made by the pastor, Rev. W. A. Vandersall. There were songs and recitations by the children. The program had been arranged by Mrs. Cynthia Fuller and was most creditable. The exercises will be repeated next Sunday evening at the Third street mission.

The Sewer Inspected.

N. E. Riggs, the civil engineer employed by the council to assist Engineer Leith in making a thorough inspection of the completed sanitary sewer, has returned to Cleveland. Mr. Riggs made a careful inspection and is satisfied that Irwin Bros. did a commendable job.

Petitions for Paving.

A very important matter will likely be brought to the attention of council at their meeting this evening. It is stated that the property owners of Sixth and Seventh streets have signed up petitions to be presented to council, asking for the paving of each street.

POULTRY POINTERS.

Game chickens have more meat in proportion to their height than any other breed of fowls.

When the chickens are growing fast, it is a good plan to mix a little bone-meal in their soft feed.

Smearing whole wheat with kerosene or turpentine and feeding it to the chickens is a good remedy for gapes.

Adding some carbolic acid and putting on hot will secure much better results from the whitewashing of the poultry house.

While it is at no time advisable to keep food of any kind before the fowls all the time, it will be an advantage to keep milk where they can drink all they want.

Fowls do not run together in large numbers. They will always divide into flocks of small size and will select different feeding grounds, always provided they have the opportunity.

A growing chicken, like a growing animal, requires plenty of good, wholesome food supplied liberally and often in order to enable them to grow and mature rapidly and to develop properly.

There Was a Limit.

"I am glad they moved away," remarked the good housewife, speaking of a family of borrowing neighbors who had just left the neighborhood. "I was willing to lend them a loaf of bread occasionally or half a dozen eggs or the washboard or the lemon squeezer, but when they got down to sending the little girl over to borrow pennies to give the organ grinder I began to think it was nearly time to draw the line and to cap the climax, one day they actually asked me to come over and take care of the baby while they went out to do the shopping!"

Uncertain About Her Age.

A Boston servant, like many of her class, does not know her age. She has lived with one family eleven years and has always been twenty-eight. But not long ago she read in the newspaper of an old woman who had died at the age of 106. "Maybe I'm as old as that meself," said she. "Indade, I can't remember the time when I wasn't alive."—Boston Christian Register.

SOUTH SIDE

A BRILLIANT FUTURE

Predicted for Holliday's Cove and Vicinity — New Industrial Town.

Regarding Holliday's Cove prospects the New Cumberland Independent says: "For many years past the great Cove valley has been looked upon by careful observers as a magnificent site for a town. Now a great tract of 1,500 acres, including the big Crawford farm of 6,000 acres, the Hooker farm of 400 acres, the Lee, Griffith and other farms have been purchased by Cyrus Ferguson, an extensive oil operator, presumably for a syndicate of capitalists, with a view to establishing a town site with extensive factories. Its natural location is a desirable one.

"With the great Pan Handle railroad near at hand, and the Cumberland branch forming a junction at that point, Holliday's Cove is a natural location for the homes of railroad people, even at the present time. With the extension of the branch northward with connecting lines, and its conversion into a great freight division, the Cove valley will be the natural location for extensive freight yards, and in fact must necessarily become such."

ENJOYABLE CONCERTS

Large Crowds Heard the Pleasing Music at the Park Yesterday.

Large crowds attended the two concerts held at Rock Springs park Sunday afternoon and evening. The principal attraction was the Harris quartet, of Pittsburg, whose vocal music was thoroughly appreciated on both occasions.

In the afternoon the vocal selection, "A Little Boy in Blue," by H. F. Blaney and the quartet and Gus Lewin's trombone solo, "The Signal," were the best numbers. In the evening "O Tell Me, Pretty Maiden," a selection from Florodora, played by the orchestra, and a vocal selection rendered by Dick Chalfant and the quartet and "Emmet's Lullaby" were thoroughly enjoyed.

Next Sunday Phinney's U. S. band, of Chicago, will be the Sunday attraction, and will without doubt be the finest yet.

THE GAME OF GAMES.

Golf, Says This Writer, Involves Art, Science and Inspiration.

It is true that there is a point of view from which golf may be regarded as an extremely simple game—the very simplest of all the games with a ball and a club, says William G. Brown in the June Atlantic. The player's object is simple and single to the point of simple mindedness and singularity, one might say—to put a small ball in a small hole with the fewest possible strokes. But so are the objects of the highest ambitions, the guiding stars of careers the most perplexed and devious. It is true, likewise, that all the countless strokes a golfer makes are resolvable into three kinds of stroke—driving, approaching and putting. But Mr. Everard, in a lecture unsurpassed for truth and brilliancy by any in all the extremely clever literature of golf, has declared that to make those three strokes right one must have "art, science and inspiration."

From the moment the ball leaves the tee, whether it be topped, pulled or sliced or whether, struck in proper fashion a trifle below the medial line and urged forward with an exquisite free lashing out of the wrists, it takes flight as with wings and seeks its true course as with a mind and purpose of its own until it drops into the cup with a tintinnabulation that no louder clang or pean ever surpassed in its suggestion of victory and consummation, there is no foreseeing what perplexity or temptation to carelessness or overconfidence it will present.

Not twice off the tee ground and the putting green will the possibilities and probabilities of the stroke be quite the same. In the lie, the wind, the distance to be traversed, the obstacles to be carried, there are variations not to be reckoned by any known mathematics.

Then, as the match approaches its dreadfully quiet climax of defeat or victory, the responsibility may grow positively appalling. The very deliberation which, impossible in most games, is so characteristic of this, so far from lessening the strain on one's nerves, undoubtedly heightens it. One has time to estimate the emergency, to realize the crisis.

Not the fiercest rally at tennis, not the longest and timeliest home run at baseball, not the most heroic rush at football, requires a more rigid concentration of thought and energy or a more dauntless courage than the flick of a putter that sends the ball crawling on its last little journey across the putting green when the put is for the hole and the hole means the match. There is not a quality of mind or body—I will not except or qualify at all—not one, that life itself proves excellent which a circuit of the links will not test.

The Declaration.

It is a rather curious fact that while facsimiles of the Declaration of Independence were common enough several years ago and were largely used for advertising purposes they are now very scarce—so scarce that a Philadelphia collector recently paid \$10 for one bearing the advertisement of a western railroad. The original document, preserved in glass, is still to be seen in the possession of the department of state in Washington, but it has become so faded as to be nearly illegible, by reason of which a photographic reproduction would be valueless. James D. McBride had plates made and secured a copyright on them in 1874, but these plates were later destroyed by fire, and none are now in existence. Consequently the copies that have been preserved are constantly increasing in value.—Philadelphia Record.

A PET ECONOMY.

Almost Every Man Maintains One, Small Though It May Be.

"Got a match about you?" asked the bookkeeper of the chief buyer.

"Wonder you wouldn't buy matches once in awhile!" growled the buyer. "I've been supplying you with matches for years."

"I never buy matches—never have and never will," said the bookkeeper. "It is my pet economy. Most every man has one."

And the bookkeeper was right. Nearly every man has a pet economy and will go to a great length to indulge it. At the Union club they still tell of a worthy old member who was particular about using a certain kind of soap, but was not willing to buy it. They used the soap at the club, and he appropriated the cakes as fast as he needed them. He needed so many that the steward changed the brand.

The same spirit of economy in small things makes other people stuff themselves with bread in order that no butter may be left on their plate and wasted. Hundreds of men would not dream of buying a lead pencil. To save buying stationery others write their letters at hotels which are generous in providing writing materials. Scores of men and women save pennies by picking up discarded newspapers in the elevated trains and ferryboats. And so it goes. It is not so much the actual money saved that moves people in these little schemes; rather an inborn desire to economize in something.

But to return to the bookkeeper, the buyer and the matches. The bookkeeper continued:

"You are stingy with your old matches. I'll just take a lot, and then I'll be independent of you."

Then he emptied out half the box.—New York Tribune.

SHOES.

Never wear a shoe that pinches the heel.

Never wear a shoe or boot tight anywhere.

Never come from high heels to low heels at one jump.

Never wear a shoe that will not allow the great toe to lie in a straight line.

Never wear leather sole linings to stand upon. White cotton drilling or linen is healthier.

Never wear a shoe with a sole narrower than the outline of the foot traced with a pencil close under the rounding edge.

Never wear a shoe with a sole turning up very much at the toes, as this causes the cords on the upper part of the foot to contract.

Never have the top of the boots tight, as it interferes with the action of the calf muscles, makes one walk badly and spoils the shape of the ankle.

Never think that the feet will grow large from wearing proper shoes. Pinching and distorting make them grow not only large, but unsightly. A proper natural use of all the muscles makes them compact and attractive.

VERY ONE-SIDED WAS THE CONTEST

New Cumberland's Much Heralded
Aggregation Not a Very
Strong One.

BEATEN WITH GREAT EASE

The Largest Crowd of the Season Witnessed the Game—The East Liverpool Boys Acquired Themselves With Great Credit.

In a very one-sided exhibition that famous New Cumberland base ball team lost to the locals in West End park Saturday afternoon by a score of 11 to 3. The boys from the sewer pipe town, having been heralded as the best team in this section of the country, almost every fan in the city was present when the game was called. They were heard to say along about the middle of the game, "I'll bet that I don't get fooled down here again, to see a game between Walsh's team and a team within 40 miles of this city."

It was exactly 4:30 when the game was started, the visitors not arriving on the grounds until 4:15 and then they thought that at least 15 minutes should be given them to learn the lay of the land. It is now the general opinion that they should have been allowed at least a week. There was really but one pleasing feature of the whole performance. That was its brevity.

The visitors were never allowed to hold the bat longer than five minutes and usually three was the limit. Why they didn't put up a better game under the existing circumstances is certainly a mystery. Their lineup consisted mostly of East Liverpool boys and the cream of Hancock county. The former contingent should have been enough to win, but probably it was due to their associates. Where were the 200 fans that they talked so long and loud about? They surely stayed at home, and excellent good judgment they used. It was bad enough for the team that has done more crowing than any aggregation in the valley to return home with feathers down, without mentioning what the rooters would have been compelled to do.

For the first time this season the grand stand was filled to its utmost capacity. The day was an ideal one and all friends of the players on each team took advantage of being present. It is estimated that there were over 600 in the park and at least 20 per cent of them were ladies. During the first half of the contest excitement was evident to a small degree, but from the sixth inning until the close every one knew what the result would be, and the visitors were compelled to play with not only the local team against them, but the enthusiasts.

Godwin is now a resident of New Cumberland and of course played at short for them. It was just as well. Of late he has cut out his old time sensational playing and has substituted the lining up of errors. In this game he got three of them credited, which exceeds by one the number he has made in every game he has played on the local diamond this season. The man who played at third, Brandon by name, failed in his great effort to make a hit with the ladies. His hair was long and pretty enough, but when it came to being there with the goods he fell short and started away back.

Every man on the local team acquitted himself to the satisfaction of even Mr. Robinson, the New Cumberland rooster from Sebring. Maley held up as usual, getting nine strikeouts, three assists, one put out, one hit and a run. Harker played in a manner not common with the local team. They will have to study the young man and maybe when he whirls around and throws one to third in the future there will be some one there to stop it. Davis could hardly be blamed for being paralyzed when he saw the ball speeding over the base. He simply was not dreaming of that kind of a play. He is "next" now and not likely to repeat the error.

A COLORED MAN'S DEGREE

Moses Leonard Frazier, of Alliance, Born in Slavery, Honored By a University.

New York, June 16.—Among the advanced degrees given by Columbia university at commencement, none, perhaps, represented more energy and perseverance than that of master of arts, bestowed upon Moses Leonard Frazier.

Frazier is a negro, and is said to be the only one ever graduated from the school of political science of Columbia. He was born in slavery, in New Orleans, 42 years ago.

Frazier worked 20 years for his college course. He entered Mt. Union college, Alliance, O., and received a degree of bachelor of philosophy, in 1896. Then he went to Harvard, but did not like it, and entered the New York law school and received the degree of bachelor of laws, returning later to Mt. Union and securing a master's degree in philosophy.

GLASS WORKS AT SEBRING

Reports That Such a Plant Will Be Built Instead of New Pottery.

It is definitely decided to build glass works at Sebring for the manufacture of table glassware, and the Sebrings are now on the lookout for a competent manager. They have been to Pittsburg lately after such a man. It was thought best to make glass works take the place of a second pottery in order to diversify industries. The building of the works will proceed as soon as the plans are completed.

Road Law's Validity Questioned.

The ruling of the circuit court on road cases in Cuyahoga and Hamilton counties, holding unconstitutional a recent road law abolishing the office of road supervisor, is said to be also applicable to the new law for Columbiana and Stark in regard to the above matter. The court held the act to be "a local law on a general subject."

DATTOS WANT FLAGS

Considered Equivalent to Taking Oath of Allegiance to America.

ADA TELLS DAVIS OF MURDERERS

Says Two of the Men Wanted Were Killed in Battle With Americans and One Escaped—American Sentry Badly Cut by a Moro.

Manila, June 16.—General Davis, the commander of the American forces on the island of Mindanao, has been informed by Datto Ada that two of the three Moros who murdered the American soldier named Lewis were killed in the engagement at Bazan between Moros and Americans last May, and that the other murderer has disappeared.

An American sentry belonging to the engineers was badly cut with a bolo in the hands of a Moro while on duty near Vicars.

Several Dattos under the sultan of Mindanao have called upon Colonel Frank D. Baldwin, of the Twenty-seventh infantry, and have asked him for American flags. This action on the part of the Dattos was considered equivalent to taking the oath of allegiance to the United States.

FIVE AMERICANS MURDERED.

Natives Said Report Was Correct as to Americans and Natives Captured.

Manila, June 16.—Friendly natives in Manila said a report was current that their countrymen and the five soldiers of the Fifth cavalry who were captured by the insurgents, May 30, had been killed to death near Teresa, in Morong province, Luzon. This had not been confirmed by the American authorities of that district.

Twenty-five members of a band of insurgents who were captured while fighting with General Lukban in Samar took the oath of allegiance to the United States and were subsequently released. Four members of the band were killed in the engagement which resulted in the capture of their companions. The 25 who had sworn allegiance sent for General Chaffee and promised to give him all the assistance in their power in the work of maintaining the present peace conditions in Samar.

A commission was sent to Samar to appoint Senor Llorentes governor of the island and to establish civil government there. It is expected that a general amnesty will be declared July 4. This amnesty will result in the release of the Filipino prisoners now on the island of Guam.

The prospects in the island of Leyte for a speedy termination of the armed resistance there were bright.

CHRIST THEIR LIGHT.

Believers in Christian Science
Hold Communion Services
at Boston, Mass.

13,000 PEOPLE IN ATTENDANCE.

Message Received From Rev. Mary Baker Eddy—Telegram Sent in Return, Spoke of Her Humble, Chastened Obedience to God.

Boston, June 16.—The annual communion service of the mother church of the Christian Science denomination in Mechanics' hall Sunday were attended by about 13,000 people, 7,600 at the morning service and 6,000 during the afternoon. The principal feature of the service was a message from the pastor emeritus, the Rev. Mary Baker Eddy.

Another important feature was a telegram expressing gratitude and appreciation to Mrs. Eddy, which was put in the form of a motion and unanimously adopted by the audience rising in their places.

This telegram, addressed to her in Concord, N. H., says:

"For more than 30 years your voice and pen have proclaimed that God, who hath done all things well, has created for no man no law but the law of life and holiness. During these years your constant plea has been the voice of righteousness to this day and generation, entreating for a higher and more genuine morality; for the obliteration of sin; for the daily life in imitation of Christ; for a better citizenship, the tranquility of nations and the reign of Christ on earth.

"Your ministry has been to preach Christ's theology which promises to destroy all the works of the devil, including sickness and sin. Because your consistent daily life has been for us an example of lofty purpose, of unflinching love and of humble, chastened obedience to God, we desire to thus make known our profound appreciation and to manifest to you our reasonable gratitude and thanksgiving."

CARDINALS ARE NAMED.

Will Examine Proposition Regarding Philippine Questions and Report

Rome, June 16.—The sub-commission of cardinals which will examine the propositions presented to the Vatican by William H. Taft, civil governor of the Philippine islands, who is in Rome for the purpose of reaching a friendly understanding with the Vatican authorities regarding the disposition of the property of the religious orders and other church property in the Philippine islands, will meet Tuesday. It is expected that the commission will relate the purport of their examinations to the pope, June 18.

The commission is composed as follows: Cardinal Rampolla, papal secretary of state; Cardinals Vives y Tuto, Steinhuber, Gotti and Vannutelli. Cardinal Rampolla has assured Civil Governor Taft that the matter will be concluded not later than June 20.

Judge Taft and his party were entertained Saturday evening at dinner at the American embassy.

HONOR FOR CATHOLIC LAYMAN.

Smith to Get LL. D.—Name May Be Presented to Pope For Knighthood.

Pittsburg, June 16.—At the annual commencement exercises of Mt. St. Mary's college, Emmitsburg, Md., next Wednesday, Francis P. NEW CASTLE MAN'S CRIME.

Murdered a Woman, Then Was Killed Struggling With Another Over Revolver.

Philadelphia, June 16.—Mrs. Rachel Saylor, a widow, was yesterday shot and killed at Coatesville, Pa., 40 miles west of here, by Harry N. Ricer, of New Castle, Pa., who was also killed by a bullet from his revolver while struggling with another woman for possession of the weapon. The tragedy, it is said, was the result of a quarrel. Ricer was employed by a Pittsburg firm of contractors who are building a new steel plant at Coatesville. He was regarded as Mrs. Saylor's accepted suitor. Saturday night Ricer visited the woman and they are said to have quarreled. Mrs. Saylor ordered him from the house and she went to the home of Mrs. Mary L. Ernest to spend the night.

Yesterday Ricer appeared at the house and demanded an interview with Mrs. Saylor. She declined to receive him and was dismissing him at the door, when he drew a revolver from his pocket and shot her through the heart. He then, it is claimed, aimed the revolver at Mrs. Ernest, who grappled with him. During the struggle the pistol was discharged, the bullet taking effect in Ricer's head, killing him almost instantly. The coroner found letters in Ricer's pockets signed "Alma," which indicated that he was engaged to be married to a young woman in Columbus, O.

SOLDIER BURIED WITH HONORS

Father Found Skeleton of Boy Murdered by Filipinos, in Swamp.

Baltimore, June 16.—The remains of Hamlet Jarvis, Jr., formerly a member of the Thirty-fifth volunteer infantry in the Philippines, who was murdered two years ago by insurgents, were buried here yesterday. In October, 1900, Jarvis was one of several American soldiers, who left Balangas as an escort to Jose Buen camino, presidente of San Miguel de Mayumo.

The whole party was captured, taken into a swamp and assassinated with daggers. Subsequently two of the insurgent murderers, Timoteo Dhalan and Manuel Gonzales, were executed for the crime, but they refused to tell where the bodies were hidden. Dr. Hamlet Jarvis, the father of young Jarvis, who resides here, was a scout, who was employed in spending a great deal of money to that end. A few months ago he succeeded in finding his son's skeleton in a swamp and it was brought here for interment. The remains were buried with military honors by Company A, Fifth Maryland regiment, of which young Jarvis was a member during the war with Spain.

KING OF ENGLAND ILL.

Edward VII Suffered Chill From Exposure—Symptoms of Lumbago Appeared.

London, June 16.—King Edward yesterday was suffering from a chill, which prevented him from attending yesterday's church parade of the Aldershot garrison.

The chill came as a result of the king's prolonged stay outdoors Saturday night upon the occasion of the torchlight tattoo at Aldershot. The chill was a slight one, accompanied by symptoms of lumbago. The weather Saturday night was extremely cold and it rained at intervals before their majesties left the brigade recreation ground. King Edward returned to his apartments chilled from the unwanted exposure. These reports of his majesty's illness naturally caused apprehension, but there was apparently no reason to anticipate serious results.

An authentic statement from Aldershot last evening was to the effect that King Edward was slightly indisposed, but that his indisposition was not of a serious nature.

DEMOCRATS HELD CONFERENCE.

Pennsylvanians Drafted Planks For Coming Convention—Pattison or Guthrie May Be Chosen.

Atlantic City, N. J., June 16.—An important political conference was held here Sunday at the Garden hotel by leading Pennsylvania Democrats, which will have an important bearing upon the action of the coming state convention at Erie, as well as the gubernatorial campaign in the state. Those present at the conference were: Dallas Sanders, of Philadelphia, who acted as chairman of the meeting; William J. Brennan, of Pittsburg; John J. Green, attorney for the Philadelphia city committee; former State Chairman John S. Rilling, of Erie; Robert E. Wright, of Lehigh; George W. Guthrie, of Pittsburg; Charles P. Donnelly, city chairman of Philadelphia; Congressman J. K. P. Hall, of Ridgeway, and former State Chairman Kerr, of Clarfield.

Various measures having to do with the ballot reform, personal registration and primary election laws were discussed and the general outline of the plank in the Democratic state platform dealing with ballot reform was drafted. Members of the conference stated that it was a concrete unambiguous declaration.

It was positively stated last evening by Mr. Hall that he would not allow the use of his name for the governorship at this time, and while Mr. Guthrie was non-committal, yet he and former Governor Robert E. Pattison are looked upon as the most available and strongest candidates for the party. It was the consensus of opinion here that one of them will be chosen as the standard bearer.

GOMEZ GOT \$25,000?

Alleged He Received It For Not Opposing Palma's Election.

Washington, June 16.—Regarding the story emanating from New Orleans Saturday that General Gomez received a \$25,000 bribe from the administration to withdraw from the Cuban campaign, thereby permitting the election of Estrada Palma, it was stated Saturday night, by an official close to President Roosevelt, that he had never before heard of it. Secretary Hay said that he had not received the slightest intimation of it from any source.

In the latter part of May it was announced from Washington that such a grant of money had been made. Now the attempt is made to show that the payment to Gomez was authorized as a bribe not to make trouble, and thus put in danger Mr. McKinley's re-election in 1900. The man who makes the new charges is a former correspondent at Havana. He was in this city Friday, and said: "I know just where the check for this sum of money can be found; I know right where to lay my hands on it."

Boston, June 16.—General Leonard Wood Saturday night said there was nothing to the New Orleans story that a sum of money was paid to General Gomez in order that he might not oppose Tomas Estrada Palma.

High Class Residences We have them in all parts of the city. They are generally occupied by their owners. For reasons that are obvious to all owners of fine properties they do not want general publicity made of the fact that their "home" property is for sale. These properties we are ever ready to tell you of on condition that you evince enough interest to make inquiry of us. You'll never get prices or particulars in our advertising columns of them. Don't think that we cannot suit you. Try us. Further, we'll save you money.

300 Dwellings For Sale. Have you ever seen our mammoth For Sale List? If not call and get one, or send us your address and we will mail you a copy. When you come to us you have a selection of properties to choose from representing three-fourths of all the properties on sale in the city. We make it profitable to do business through us. Give us 20 minutes of your time; if we don't interest you, we'll say no more about it. We make terms of purchase to suit you.

HOME AFFAIRS.

Brief Notes of a Personal Nature and of Matters About Town.

A Daughter Born—Mr. and Mrs. Claude C. Smith, of Pennsylvania avenue, are rejoiced by the arrival of a little daughter at their home yesterday afternoon.

Probationers to Be Admitted—The probationers class of the First M. E. church next Sunday will be received into full membership. The class has been under instruction for the past six months.

Thanks Extended—At a regular meeting of General Lyon Post, No. 44, G. A. R., the adjutant was instructed to extend the thanks of the post to City Marshal Thompson for his able service in collecting funds to defray the expenses of Memorial Day, and also to citizens who contributed so liberally on that occasion.

A Young Wheelman Hurt—Wilbur Earl, a boy, rode his bicycle to the show grounds yesterday afternoon to see the animals. He also rode his wheel back home, but when riding along Fourth street the front wheel struck a stone, throwing Wilbur to the brick pavement. Wilbur now has a deep cut on his left arm just below the elbow.

A Big Purchase of Wool—Constable James Miller, who went to Mechanics-town, Pa., Saturday morning for the purpose of purchasing wool for a large eastern woolen mill company, returned home yesterday. While there he succeeded in contracting for not less than

15,000 pounds of wool, for which he paid from 16 to 50 cents a pound. The wool will be brought to this city and shipped east as soon as possible.

Rudely Awakened—While sitting on a stool in a local restaurant sleeping soundly due to an over-indulgence in corn juice, Charles Messer, of Chester, was rudely awakened by Officer Morris and taken by the aid of the patrol to more comfortable quarters in the city hall. When arraigned this morning he pleaded guilty to a charge of drunkenness and was fined \$1 and costs.

RAILWAY WANTED

(Continued from First Page.)

Brookes is wrong. This \$5,000 is to be guaranteed to the street railway company by the Pleasant Heights Land company, and you can say so on my authority.

"Mr. Brookes goes on to say that it is not the residents of that district who are so much exercised in this matter but the land company. Now let me tell you just how much the North-side land company is interested. For two months prior to this company taking any action, the residents of the Pleasant Heights district were agitating the matter, having engaged counsel and held a number of meetings. To my absolute knowledge the North-side Land company took no action, attended no meetings, until especially requested to do so by a committee representing the residents.

"It is absurd for Mr. Brookes to say that the residents of that district are not more deeply interested in a railroad than any land company can be. Many hundreds of residents have invested their entire savings in their property and improvements on the strength of the franchise and contract given by the city to the street railway company. They had a right to expect that the street railway would reach their district and, Mr. Brookes to the contrary notwithstanding, their dollars WILL be cut in two.

"About the equipment of the road citizens of East Liverpool need be told nothing, especially those who are employed in the East End factories and these living in Wellsville, in either case it being necessary for them to use these street cars in going to and from their places of employment. The very best modern wheel brakes and track brakes are used on the Calcutta road. I think it is questionable; in fact, I am sure there is not an electric brake used on the road, at least I have been so informed by those on the inside. Now, if Mr. Brookes doesn't know that these electric brakes are the most modern equipment for roads in a hilly country he should investigate a little more closely.

"Mr. Brookes also states that the ordinance under which the railway is to operate requires the use of girder rails on paved streets. This is true, but the paved street ends at the turn just above Jethro. From there out the street is unpaved, and I think the ordinance does not require the use of girder rails above that point.

"But what is the use of all this discussion as to the ethics of railroad building?

"The fact remains that the street railway company obtained its franchise and was enabled, as Mr. Healy informed me himself, to sell its bonds on the extension of time the franchise granted him. The council has ordered him to build the extension or vacate the franchise, and Mr. Brookes now intimates that they will defy council and refuse to comply with their orders under the franchise. I can imagine what council's reply will be. Again Mr. Brookes rushes into print and states that advantage was taken of him. He talks about snap judgment, etc. As to how much justice there is in this claim I leave to your readers. They know that Mr. Brookes went down to council two weeks prior to the Pleasant Heights residents' attorneys, and council very courteously listened to his side of the case. He certainly cannot deny this, and he gave the Pleasant Heights people no notice of his intention to appear; but now, because the attorneys for the other side pursue the same course, he says 'snap judgment' was taken on him.

"The people have been waiting for two years with a line guaranteed to them and still no street cars. Mr. Brookes asks council to consider all

the things the city and its inhabitants might lose by annulling the later franchise. I think Mr. Brookes primarily had in mind what the street railway would lose, and possibly it was this thought that engendered his remark."
